**The 1967 American League Pennant Race** Cameron Bright,2018-05-25 In 1967 in the midst of a nail biting six week pennant race the Red Sox Tigers Twins and White Sox stood deadlocked atop the American League Never before or since have four teams tied for the lead in baseball s final month The stakes were high there were no playoffs the pennant winner went directly to the World Series Here for the first time all four teams are treated as equals The author describes their contrasting skill sets leadership and temperament The stress of such stiff and sustained competition was constant and there were overt psychological and physical intimidations playing a major role throughout the season The standings were volatile and so were emotions The players and managers varied some wilted

or broke others responded heroically **American Horror Film** Steffen Hantke,2010-09-30 Creatively spent and politically irrelevant the American horror film is a mere ghost of its former self or so goes the old saw from fans and scholars alike Taking on this undeserved reputation the contributors to this collection provide a comprehensive look at a decade of cinematic production covering a wide variety of material from the last ten years with a clear critical eye Individual essays profile the work of up and coming director Alexandre Aja and reassess William Malone s much maligned FearDotCom in the light of the torture debate at the end of President George W Bush s administration Other essays look at the economic social and formal aspects of the genre the globalization of the US film industry the alleged escalation of cinematic violence and the massive commercial popularity of the remake Some essays examine specific subgenres from the teenage horror flick to the serial killer film and the spiritual horror film as well as the continuing relevance of classic directors such as George A Romero David Cronenberg John Landis and Stuart Gordon Essays deliberate on the marketing of nostalgia and its concomitant aesthetic and on the curiously schizophrenic perspective of fans who happen to be scholars as well Taken together the contributors to this collection make a compelling case that American horror cinema is as vital creative and thought provoking as it ever was The West American Scientist ,1889 *The Breakup Artists* Adriana Mather,2024-06-04

McNeil,2015-10-03 After Babe Ruth erased Buck Freeman s record in 1919 the new mark stood for 34 years before Maris bettered it defying as he did an incredulous sporting public And just as fans anger grew old and Maris was grudgingly credited or discredited with an unrepeatable hot streak along came Mark McGwire and Sammy Sosa two goliaths who in 1998 and the years just after proved fans wrong again But when in 2001 only three years after McGwire seemed to put the record beyond reach Barry Bonds topped him by three This time fans were staunch in their disbelief and while many celebrated Bonds achievement others questioned its significance This revised edition of Bill McNeil s Ruth Maris McGwire and Sosa libraries especially will want this Library Journal reviews the careers of each home run titan with special attention to the record breaking seasons The cultural and social changes that may have affected both the players season totals and fan reception are also considered *Fate in Film* Thomas M. Puhr,2022-10-18 The course of events is predetermined and cannot be changed Forces beyond our control or even our comprehension shape our fates Such is the deterministic worldview embedded in a wide swath of contemporary cinema from arthouse experiments to popular genre films through both thematic concerns and narrative structures These films especially the recent spate of elevated science fiction and horror tap into this deep seated anxiety by focusing on characters who ultimately fail to transcend the patterns and structures that define them

Thomas M Puhr identifies and analyzes the ways that cinema has dealt with the tension between fate and free will from Stanley Kubrick's *The Shining* to Christopher Nolan's *Tenet*. He examines films that express deterministic ideas including circular narratives of stasis or confinement and fatalistic portraits of external forces dictating characters' lives. Puhr considers determinism at the levels of the individual, the family, and society, reading films in which characters are trapped by past or alternate selves, the burdens of family histories, or oppressive social structures. He explores how films such as Joel and Ethan Coen's *Inside Llewyn Davis*, Ari Aster's *Hereditary*, Jordan Peele's *Us*, and Lucrecia Martel's *Zama* confront the limits of human agency. Puhr relates deterministic themes to the nature of moviegoing. In denying characters any ability to choose alternative paths, these films mirror how viewers themselves can only sit and watch. Recasting the works of some of today's most compelling directors, *Fate in Film* is an innovative critical account of an unrecognized yet crucial aspect of contemporary cinema.
