Australian Wine Industry Technical Conference ,2005 **The Wine List** Grant Reynolds,2023-11-07 A one of a kind exploration of the relationship between culture politics history and wine Vintage refers to the year grapes are harvested and that vintage holds meaning You can look up the weather in any almanac but some stories are known only to insiders until now In this wine book Grant Reynolds award winning sommelier deciphers these signatures to reveal the impact of marketing and mentorship technology and trends and influencers old and new Beginning in the late eighteenth century with a tale about Thomas Jefferson s secret White House stash and spanning over a quarter of a millennium to social media s effect on chenin blanc s popularity The Wine List explores both the chemistry and sociology that have made vintages taste a certain way fetch a certain price or go extinct altogether Featuring sidebars on topics like the taste of climate change mini timelines capturing significant historical moments and collage style illustration these entries solidify the idea that every bottle is a product of a particular moment in time A must read for fans of wine books like Wine Folly or The World Atlas of Wine The Wine List is a fresh new wine bible perfect for anyone looking for bar cart books or gifts for wine lovers **The Australian Banker** ,1999 **Imperial Wine** Jennifer Regan-Lefebvre,2024-04-23 A fascinating and approachable deep dive into the colonial roots of the global wine industry Imperial Wine is a bold rigorous history of Britain s surprising role in creating the wine industries of Australia South Africa and New Zealand Here historian Jennifer Regan Lefebvre bridges the genres of global commodity history and imperial history presenting provocative new research in an accessible narrative This is the first book to argue that today s global wine industry exists as a result of settler colonialism and that imperialism was central not incidental to viticulture in the British colonies Wineries were established almost immediately after the colonization of South Africa Australia and New Zealand as part of a civilizing mission tidy vines heavy with fruit were symbolic of Britain s subordination of foreign lands Economically and culturally nineteenth century settler winemakers saw the British market as paramount However British drinkers were apathetic towards what they pejoratively called colonial wine The tables only began to turn after the First World War when colonial wines were marketed as cheap and patriotic and started to find their niche among middle and working class British drinkers This trend combined with social and cultural shifts after the Second World War laid the foundation for the New World revolution in the 1980s

making Britain into a confirmed country of wine drinkers and a massive market for New World wines These New World producers may have only received critical acclaim in the late twentieth century but Imperial Wine shows that they had spent centuries wooing and indeed manufacturing a British market for inexpensive colonial wines This book is sure to satisfy any curious reader who savors the complex stories behind this commodity chain
