The B17 Remembered:

A History Of The B-17 Flying Fortress in Over 400 Photographs, Stories And Analysis: Including The U.S. Army Air Forces in World War II: Combat Chronology 1941 - 1945 - American Air Power in WWII ,2015-08-01 PREFACE The chronology is concerned primarily with operations of the US Army Air Forces and its combat units between December 7 1941 and September 15 1945 It is designed as a companion reference to the seven volume history of The Army Air Forces in World War II edited by Wesley Frank Craven and James Lea Cate The research was a cooperative endeavor carried out in the United States Air Force historical archives by the Research Branch of the Albert F Simpson Historical Research Center Such an effort has demanded certain changes in established historical methodology as well as some arbitrary rules for presentation of the results After International and US events entries are arranged geographically They begin with events at Army Air Forces Headquarters in Washington then proceed eastward around the world using the location of the headquarters of the numbered air forces as the basis for placement For this reason entries concerning the Ninth Air Force while operating in the Middle East follow Twelfth Air Force When that headquarters moves to England in October 1943 the entries are shifted to follow Eighth Air Force The entries end with those numbered air forces which remained in the Zone of the Interior as well as units originally activated in the ZI then designated for later movement overseas such as Ninth and Tenth Air Forces The ZI entries do not include Eighth and Twentieth Air Forces which were established in the ZI with the original intent of placing them in those geographical locations with which they became historically identified For these two units original actions are shown either under AAF or in their intended geographic area of location All times and dates used are those of the area under discussion The entry 1 2 Jun indicates that an event occurred during the night between the two given dates while 1 2 Jun indicates an action over a period of time In dealing with people again arbitrary decisions were implemented For military men below the general officer or equivalent level full grade and name were used For general officers and those of equal grade in other US and foreign services the complete rank both that at the time first mentioned and the highest rank held prior to the end of the war and name will be found in the index Only an abbreviated rank e g Gen or Adm and last name are used in the text The exception is where two general officers had the same last name in such cases the first name is also included Similarly for civilian leaders only the last name is used full name and title are given in the index Location of all towns islands etc is also made in the index In all cases attempts were made to cite place names in use by the native population at the time of or immediately before the war No names imposed by a conqueror are used For example Pylos Bay not Navarino Bay is used Further as appropriate native geographic terms are used Shima for island in Japanese island groups See for lake in Germany However two exceptions were made In cases in which the place became infamous because of the actions of the conquering power that name is preferred for example Auschwitz would be used rather than the Polish name of Oswiecim Also in larger international cities such as Roma Koln and Wien the anglicized name is used Where a

village or hamlet was difficult to locate or where there were several such places with the same name in a general area the coordinates are given in the index In some cases with no extant navigational aids of the attacking force the best possible guess was made based upon all available evidence In other instances such as the bridge at Hay ti attacked so often by Tenth Air Force a logical guess could not be made In these cases a question mark is placed in brackets after the index entry Accent marks such as umlauts were omitted

A Life Remembered Deborah Ann O'Neil,2020-11-04 When I first thought about writing this book I struggled with names for the characters Do I write factual events or create them How deeply should I go into my story And the list went on and on For years I jotted down ideas and toyed with being openand honest about my life s journey both the good and the ugly and then I finally came to the realization if I can help just one person in their struggles by being truly honest then that was the best way to go about writing this book And so I began the journey of unveiling my trials and tribulations as well as my many joys to you the reader so that you could experience those moments and take away from each chapter something that may help you realize that you are special and that you have unique talents that only you can bring into this world My message is nevergive up and always remember that change begins with you

The Boys in the B-17 T/Sgt James Lee Hutchinson EdS,2011-11-23 The author in flight gear after photo twelfth mission second Air Medal age nineteen He still wears lucky Air Cadet ring Hutch s third book contains short stories of boys on B 17 Flying Fortress crews in deadly missions with the Eighth Air Force in World War II and stories of his own teenage combat experiences as radio gunner on twenty missions with the Mighty Eighth Teenagers enlisted or were drafted trained and went into combat before they could legally vote or buy a drink They

volunteered to fly in the Army's Air Cadet Program and became a part of the greatest air armada in the world. Most of the gunners on a bomber crew were teenagers and the average age of officers was twenty-four. Veterans' memoirs and diaries give amazing reports of fighter attacks, flak damage, and those who survived being shot down out to become Prisoners of War. These youngsters manned the planes that bombed and destroyed Germany's military and war industry. The price of victory was high with an extreme loss of aircrews and planes. Eighth Air Force losses were among the highest of any military unit. Like the author, teenagers who survived to tell the stories of those great air battles are now in their mid-eighties and rapidly passing into history. See previous books *Through These Eyes* and *Bombs Away*. See a free DVD at <http://video.smithville.net/p17> for interviews of the author with actual WW II combat film footage. [B-17 Memories](#) T/Sgt. James Lee Hutchinson Ed.S., 2014-05-22. The Memphis Belle completed 25 missions and became the symbol of Eighth Air Force success in the air war over Europe. Its national tour rallied support and encouraged citizens enduring rationing and sacrifices for victory. Heavy bomber aircrews proved their value with precision bombing. My writing is based on memories, diaries, and interviews of other veterans and my teenage experiences as an Eighth Air Force B-17 radio gunner on twenty combat missions with the 490th Bomb Group H. This fourth book presents short stories of boys on B-17 Flying Fortress crews flying deadly missions to destroy German and Italian military targets. Twenty-six thousand airmen died and thousands more were wounded. The sky was our arena and we paved the way for Infantry and Armored Divisions slogging through heat, rain, or snow to preserve our freedom. Many B-17 gunners were teenagers who enlisted or were drafted, trained, and sent into combat before they could legally vote or buy a drink. They saved our freedom and came home to build the USA into the most powerful nation in the world. I self-publish because I am 89 and my time is limited. I thank God that I have been able to record more than 350 stories of my generation. WW II veterans are fading into history; less than two million of the sixteen million who served are left to tell their stories.
