The Music of Carl Philipp Emanuel Bach David Schulenberg, 2014 Of the four sons of J S Bach who became composers Carl Philipp Emanuel 1714-88 was the most prolific the most original and the most influential both during and after his lifetime This first full length English language study critically surveys his output examining not only the famous keyboard sonatas and concertos but also the songs chamber music and sacred works many of which resurfaced in 1999 and have not previously been evaluated The book also outlines the composer's career from his student days at Leipzig and Frankfurt Oder to his nearly three decades as court musician to Prussian King Frederick the Great and his last twenty years as cantor at Hamburg Focusing on the composer's choices within his social and historical context the book shows how C P E Bach deliberately avoided his father's style while adopting the manner of his Berlin colleagues derived from Italian opera A new perspective on the composer emerges from the demonstration that C P E Bach best known for his virtuoso keyboard works refashioned himself as a writer of vocal music and popular chamber compositions in response to changing cultural and aesthetic trends Supplementary texts and musical examples are included on a companion website David Schulenberg is professor of music at Wagner College and teaches historical performance at the Juilliard School He is the author of *The Music*

Bach's Musical Offering** Anatoly Milka, 2019-10-04 J S Bach's Musical Offering is a broadly known and extensively studied collection of musical pieces written in 1747 shortly after his visit to the Potsdam court of Frederick the Great The composition however survived in separated sheets of different formats and finding the logic of its organization into a cycle became a great challenge for scholars of the following centuries Based on ground breaking findings by Christoph Wolff who revealed the main principles of the Musical Offering's structure as well as those promulgated by Hans Theodor David and more recently by G Butler W Wiemer R Tatlow and many other scholars this book develops and revises their ideas arriving at a unique conception of the possible original structure of the Musical Offering While the rods of the collection do not provoke disagreements among scholars the ordering of the ten canons including the Fuga canonica remains mysterious in many aspects and this text gives them a close examination It considers their kinds thematic and contrapuntal textual inscriptions the canons function within the cycle as vignettes to the main pieces and their location among other aspects The volume includes profuse references to historical and cultural context court etiquette contrapuntal techniques the history of the *ricercar* expertise in Bach's handwriting and habits of music layout in his manuscripts and the Baroque principles of organization in arts **Musical Standard** ,1923 Musical Opinion and Music Trade Review ,1912 **Woodwind**
