The Bank Of North Dakota An Experiment In State Ownership:

The Bank of North Dakota Rozanne Enerson Junker, 1989 **Institutional Logics in Action** Eva

Boxenbaum, Michael Lounsbury, 2013-07-09 The Institutional Logics Perspective is one of the fastest growing new theoretical areas in organization studies Thornton Ocasio Lounsbury 2012 Building on early efforts by Friedland Alford 1991 to bring society back in to the study of organizational dynamics this new scholarly domain has revived institutional analysis by embracing a *The Nonpartisan League in North Dakota* Canadian Reconstruction Association, 1921 **The Farmer's**

Lawyer Sarah Vogel, 2021-11-02 With a new foreword by Willie Nelson An exquisitely written American saga Sarah Smarsh The remarkably well told and heartfelt John Grisham story of a young lawyer's impossible legal battle to stop the federal government from foreclosing on thousands of family farmers In the early 1980s farmers were suffering through the worst economic crisis to hit rural America since the Great Depression Land prices were down operating costs and interest rates were up and severe weather devastated crops Instead of receiving assistance from the government as they had in the 1930s these hardworking family farmers were threatened with foreclosure by the very agency that Franklin Delano Roosevelt created to help them Desperate they called Sarah Vogel in North Dakota Sarah a young lawyer and single mother listened to farmers who were on the verge of losing everything and inspired by the politicians who had helped farmers in the 30s she naively built a solo practice of clients who couldn't afford to pay her Sarah began drowning in debt and soon her own home was facing foreclosure In a David and Goliath legal battle reminiscent of A Civil Action or Erin Brockovich Sarah brought a national class action lawsuit which pitted her against the Reagan administration's Department of Justice in her fight for family farmers Constitutional rights It was her first case A courageous American story about justice and holding the powerful to account The Farmer's Lawyer shows how the farm economy we all depend on for our daily bread almost fell apart due to the willful neglect of those charged to protect it and what we can learn from Sarah's battle as a similar calamity looms large on our horizon once again Money, Power, and the People Christopher W. Shaw, 2022-12-22 An engaging and well

researched study of ordinary people who joined together to challenge financial institutions Choice Banks and bankers are hardly the most beloved institutions and people in this country With its corruptive influence on politics and stranglehold on the American economy Wall Street is held in high regard by few outside the financial sector But the pitchforks raised against this behemoth are largely rhetorical We rarely see riots in the streets or public demands for an equitable and democratic banking system that result in serious national changes Yet the situation was vastly different a century ago as Christopher W Shaw shows This book upends the conventional thinking that financial policy in the early twentieth century was set primarily by the needs and demands of bankers Shaw shows that banking and politics were directly shaped by the literal and symbolic investments of the grassroots This engagement remade financial institutions and the national economy through populist pressure and the establishment of federal regulatory programs and agencies like the Farm Credit System and the Federal

Deposit Insurance Corporation Shaw reveals the surprising groundswell behind seemingly arcane legislation as well as the power of the people to demand serious political repercussions for the banks that caused the Great Depression One result of this sustained interest and pressure was legislation and regulation that brought on a long period of relative financial stability with a reduced frequency of economic booms and busts Ironically this stability led to the decline of the very banking politics that brought it about Giving voice to a broad swath of American figures including workers farmers politicians and bankers alike Money Power and the People recasts our understanding of what might be possible in balancing the needs of the people with those of their financial institutions Insurgent Democracy Michael J. Lansing,2016-11-08 In 1915 western farmers mounted one of the most significant challenges to party politics America has seen the Nonpartisan League which sought to empower citizens and restrain corporate influence Before its collapse in the 1920s the League counted over 250 000 paying members spread to thirteen states and two Canadian provinces controlled North Dakota s state government and birthed new farmer labor alliances Yet today it is all but forgotten neglected even by scholars Michael J Lansing aims to change that Insurgent Democracy offers a new look at the Nonpartisan League and a new way to understand its rise and fall in the United States and Canada Lansing argues that rather than a spasm of populist rage that inevitably burned itself out the story of the League is in fact an instructive example of how popular movements can create lasting change Depicting the League as a transnational response to economic inequity Lansing not only resurrects its story of citizen activism but also allows us to see its potential to inform contemporary movements *The Bulletin of the National Tax Association* National Tax Association,1922 **The United States of America** , *Encyclopedia of American Social Movements* Immanuel Ness,2015-07-17 This four volume set examines every social movement in American history from the great struggles for abolition civil rights and women s equality to the more specific quests for prohibition consumer safety unemployment insurance and global justice **Cultivator and Country Gentleman** ,1919 **The Country Gentleman** ,1923 **The New Republic** Herbert David Croly,1925 **Manufacturers' Record** ,1919 *North Dakota History* ,1993 *Journal of the American Bankers Association* American Bankers Association,1921 **The Constitutional Review** ,1922 **The National Labor Digest** ,1919 *North Dakota Banker* ,1915 *Economic Democracy: The Challenge of the 1980's* Martin Carnoy,Derek Shearer,2023-03-31 This text discusses the economic social and political implications of redirecting labour and capital from a military based to a post Cold War economy *Bulletin* National Tax Association,1922
