

★ Why does the Earth Shake?

- Faults are stuck, blocks keep moving
- The energy that would normally cause blocks to slide past one another is being stored up
- Once they unstick, all the energy stored up is released
- Energy radiates in all directions creating seismic waves
- Seismic waves shake the earth as they travel through it (like ripples in a pond)

The Earth Will Shake

R Barnett

The Earth Will Shake:

This is likewise one of the factors by obtaining the soft documents of this **The Earth Will Shake** by online. You might not require more period to spend to go to the books launch as well as search for them.
