The Civilianization of War Andrew Barros, Martin Thomas, 2018-08-09 Distinguishing between civilians and combatants is a central aspect of modern conflicts Yet such distinctions are rarely upheld in practice The Civilianization of War offers new ways of understanding civilians exposure to violence in war Each chapter explores a particular approach to the political legal or cultural distinctions between civilians and combatants during twentieth century and contemporary conflicts The volume as a whole suggests that the distinction between combatants and non combatants is dynamic and oft times unpredictable rather than fixed and reciprocally understood Contributors offer new insights into why civilian targeting has become a strategy for some and how in practice its avoidance can be so difficult to achieve Several discuss distinct population groups that have been particularly exposed to wartime violence including urban populations facing aerial bombing child soldiers captives and victims of sexual violence The book thus offers multiple perspectives on the civil military divide within modern conflicts an issue whose powerful contemporary resonance is all too apparent

Birth of Bangladesh as Canada Walks a Diplomatic Tightrope Mustafa Chowdhury, 2024-11-14 This book focuses on the activities of the government of Canada Canadian NGOs Canadian media and the people of Canada during the War of Liberation of Bangladesh in 1971 It outlines Canada's assistance to the victims of the military crackdown as well as Canada's mediatory role Having no strong ties of strategic interests in Pakistan or India Canada had a sympathetic understanding of the two main parties involved the military government of President Yahya Khan and the democratic rights of the people of Pakistan represented by Sheikh Mujibur Rahman prime minister designate While the Nixon administration openly favoured Pakistan Canada's foreign policy constrained Canada The government was barraged with endless questions Was the military take over and crackdown a violation of the democratic rights of the people of Pakistan Should the process of democracy be upheld under all circumstances Should President Yahya continue his military reprisals in East Pakistan since the integrity of Pakistan was at stake What was India's role Was India dragged into the situation due to the influx of refugees What role should Canada play as a senior member of the Commonwealth There were no clear answers to these questions The declaration of independence for Bangladesh by the rebel forces and the formation of the Provisional Government of Bangladesh in India had already created another new twist on the complex issue Throughout the nine long months of the struggle for Bangladesh's independence Canada maintained its neutrality Yet it will be seen how Canada chose not to be a spectator but a player doing her best while still adhering to its foreign policy of non intervention

Genocide and Mass Violence in Asia Frank Jacob, 2019-08-05 In Asia the

Age of Extremes witnessed many forms of mass violence and genocide related to the rise and fall of the Japanese Empire the proxy wars of the Cold War and the anti colonial nation building processes that often led to new conflicts and civil wars The present volume is considered an introductory reader that deals with different forms of mass violence and genocide in Asia discusses the perspectives of victims and perpetrators alike **The Geopolitics of South Asia** Graham P.

Chapman,2016-03-09 Anyone who is planning on carrying out research in South Asia or indeed anyone who simply wishes to understand more about this cultural heartland should read this book It shows how geological movements moulded the land of this unique cradle and how they still impact on it Discussions are woven around the three major forces of integration These are identitive forces bonds of language ethnicity religion or ideology utilitarian forces bonds of common material interest and coercion the institutional use or threat of physical violence By studying these forces Professor Chapman shows how the organization of territory has been central to the region s historic cultural linguistic and economic development In addition to the material on the Northwest frontier Afghanistan and Kashmir which was added for the second edition the Northeastern borderlands are also now examined in this fully revised third edition The current geopolitical state of the region is completely updated and greatly enhanced *Humanitarian Futures* Randolph C. Kent,2024-09-19 Humanitarian Futures Challenges

and Opportunities explores the increasing types dimensions and dynamics of crises threatening the world in the twenty first century and argues that those with humanitarian roles and responsibilities can only meet such challenges if their approaches to strategic and operational planning undergo fundamental paradigmatic shifts Strategically and operationally such shifts must begin by planning from the future for the future Author Randolph C Kent the UN s first Humanitarian Coordinator with experience in some of the most complex crises of modern times including Rwanda Ethiopia Kosovo Sudan and Somalia provides a blueprint for dealing with ever greater complexity on planet Earth and beyond That blueprint is not about upgrading existing tools or relying upon tried precedence Rather it points to a new paradigm for meeting crises It begins by looking at the changing nature of humanness and governance and then turns to plausible future crises based on such changes before concluding with practical steps for dealing with ever more complex humanitarian threats now and in the future This book will be an essential read for humanitarian policymakers and practitioners as well as for humanitarian and global studies researchers and students who are and want to be engaged in understanding and preparing for ever more complex and unpredictable humanitarian challenges **B&T Urdu Tubes, Conventional Warfare in South Asia, 1947**

to the Present Kaushik Roy,2017-03-02 The essays included in this volume focus on conventional war on land sea and air fought by the states of South Asia and their impact on the host societies and economies The authors are drawn from academia and the military in India and Pakistan as well as from outside the subcontinent in order to give a wide perspective In the introduction the editors describe the changing contours of warfare in South Asia and the similarities and dissimilarities with warfare in the Middle East and South East Asia The volume highlights the influence of extra regional powers like China

Russia and the US in providing arms munitions and shaping the texture of military doctrines and force structures of the South Asian powers **Beyond Crisis** Naveeda Khan, 2012-04-27 Through the essays in this volume we see how the failure of the state becomes a moment to ruminate on the artificiality of this most modern construct the failure of nationalism an opportunity to dream of alternative modes of association and the failure of sovereignty to consider the threats and possibilities of the realm of foreignness within the nation state as within the self The ambition of this volume is not only to complicate standing representations of Pakistan It is take Pakistan out of the status of exceptionalism that its multiple crises have endowed upon it By now many scholars have written of how exile migrancy refugeedom and other modes of displacement constitute modern subjectivities The arguments made in the book say that Pakistan is no stranger to this condition of human immigrancy and therefore can be pressed into service in helping us to understand our present condition
