The Eastern Question Columbia University Studies In The Social Sciences No 39:

Columbia University Studies in the Social Sciences Lynn Thorndike, 1905 **The Eastern Question in 1870s Britain** Leslie Rogne Schumacher, 2023-09-30 This book examines mid Victorian discourse on the expansion of the British Empire's role in the Middle East. It investigates how British political leaders, journalists, and the general public responded to events in the Ottoman Empire, which many, if not most people in Britain, came to see as trudging towards inevitable chaos and destruction. Although this Eastern Question on a post Ottoman future was ostensibly a matter of international politics and sometimes conflict, this study argues that the ideas underpinning it were conceived, shaped, and enforced according to domestic British attitudes. In this way, this book presents the Eastern Question as as much a British question as one related in any way to the Ottoman Empire. Particularly in the crucial decade of the 1870s, debates in Victorian society on the Eastern Question served as proxies for other pressing issues of the day, including electoral reform, changing religious attitudes, public education, and the costs of maintaining Britain's empire. This book offers new perspectives on the Eastern Question's relationship to these trends in Victorian society, culture, and politics, highlighting its significance in understanding Britain's imperial programme more widely in the second half of the nineteenth century. *Columbia University Studies in the Social Sciences*, 1921

Columbia Studies in the Social Sciences, 1921 **Books in Print**, 1987 **Creating Consent in Ba'thist Syria** Esther Meininghaus, 2016-03-31 The challenge of maintaining dictatorial regimes through control, co-option, and coercion while upholding a facade of legitimacy is something that has concerned leaders throughout the Middle East and beyond. Nowhere is this more evident than in the Syria ruled by the Asads, both Hafiz and his son Bashar. Drawing on the example of the General Union of Syrian Women, founded in 1967, Esther Meininghaus offers new insights into how the Syrian Ba'athist regimes attempted to move beyond mere satisfaction with the compliance of the citizenry and to consolidate their rule amongst the local population. Meininghaus argues that this was partially achieved through providing welfare services delivered by the Union as one of the state-led mass organisations. In this way, she suggests these regimes did not only aim to undermine opposition and to create the illusion of consent, but they factually catered to local needs and depended on consent. Based on archival material, interviews, and statistics, *Creating Consent in Ba'athist Syria* will shed new light on mass organisations as a crucial institution of Ba'athist state building and more broadly the construction of the Asad regimes.

Subject Guide to Books in Print, 1993 **American Book Publishing Record Cumulative, 1950-1977** R.R. Bowker Company. Department of Bibliography, 1978 *Britain, Bulgaria, and the Paris Peace Conference, 1918-1919* Patrick J. Treanor, 2019-11-20 Since at least 1876, Britain's policy toward Bulgaria had been derivative of her policy toward the Turkish Straits, and it continued to be so during the period from the conclusion of the Armistice of Salonika until the signature of the Treaty of Neuilly. British policy was the main factor in shaping the Treaty of Neuilly and therefore exercised an important influence on the simultaneously unfolding Bulgarian power struggle and on setting that country's political agenda for years.
