The Eastern Since 1948:

The USA and the Middle East Since World War 2 T.G. Fraser,1989-10-16 The Middle East has rarely been absent from the world's media since the end of World War 2 Next to East West relations its conflicts have provided the most intractable set of issues in international affairs Inevitably the United States became the major outside party As the Arab Israeli dispute came to dominate Middle East affairs the Americans had to reconcile their wide ranging strategic and economic interests with the domestic pressures to support Israel This book analyses and illustrates the decisions reached in Washington and examines their impact on the region's quarrels *The Central and East European Population since 1850* F. Rothenbacher,2016-04-30 This is the third volume of three on demographics All major fields of demographic change are covered Population figures are given for each population census by sex civil status and age Major demographic developments within the family are described providing a commentary on the main population structures and trends **The East Coast Main Line 1939-1959 (Volume 2)** Peter Tuffrey,B. W. L. Brooksbank,2022-07-02 The first detailed study of this huge mainline through its operational history Features extended commentaries from the authors rich in detail Superbly illustrated with black and white photographs many never seen before In this second and final volume the whole of the East Coast Main Line between King's Cross and Edinburgh Waverley stations is examined closely with a particular emphasis on the ways and structures the line stations connections yards and other physical features Interposed are accounts of the traffic at the principal stations including connecting and branch line services with observations on changes over the period 1939 to 1959 Some emphasis is placed on freight traffic on account of its importance and perhaps its relative unfamiliarity to the reader The lines stations and many other elements are described as they were in August 1939 but as some plans on which they are based are dated before the late 1930s there may be marginal differences from the precise layout in 1939 *International Reference Service* United States. Office of International Trade,1949 **Foreign Commerce Weekly** United States. Department of Commerce,1950 *The British Empire in the Middle East, 1945-1951* William Roger Louis,1984 With intellectual rigor and careful attention to recently released papers Wm Roger Louis's study asks Why did Britain's colonial empire begin to collapse in 1945 and how did the post war Labour government attempt to sustain a vision of the old Empire through imperialism in the Middle East *The Colonial Office List, Comprising Historical and Statistical Information Respecting the Colonial Empire, List of Officers Serving in the Colonies, Etc* ,1953 **Annual Report of the Governor of the Panama Canal for the Fiscal Year Ended ...** Canal Zone. Office of the Governor,1947 *International Reference Service* ,1950 **Mineral Market Reports** United States. Bureau of Mines, **US Foreign Policy in the Eastern Mediterranean** Spyridon N. Litsas,2020-02-06 This book examines US foreign policy in the Eastern Mediterranean and the region's key role in the practice and evolution of American exceptionalism The political developments in the Eastern Mediterranean during the

19th and the first half of the 20th centuries gave to the US opportunities to express in the most explicit way its anti colonialism the fervent support of open and democratic societies and its willingness to openly confront tyranny and oppression whenever this was possible or necessary for American interests Since that time the region has been a testing ground for the core elements of American foreign policy deployed worldwide The monograph shows the contributions of the United States during critical moments in the region such as the First Barbary War 1801 1805 the introduction of Truman Doctrine Washington s role in the Suez Crisis the Greek junta and the Imia Crisis of 1996 It also scrutinizes the different levels of the economic military and diplomatic challenges which China Russia and Turkey present today while it also covers the American approach to the Arab Spring From a Shining City on a Hill to the current Make America Great Again mottoes this critique follows American Foreign Policy in the Eastern Mediterranean and the strong bonds that the nation established with the geostrategic political and ideological features of the region The pace of recent events and the increasing complexity of this global corner prove a challenge to America today the future and clarion call that hard work and the finest ingenuity are necessary to keep its regional hegemony and its course toward increased prosperity This work s goal is to inspire the conversations by academics diplomats leaders both political and military and most of all businessmen to this end

The Plans That Failed André Steiner,2013-08-01 The establishment of the Communist social model in one part of Germany was a result of international postwar developments of the Cold War waged by East and West and of the resultant partition of Germany As the author argues the GDR s new society was deliberately conceived as a counter model to the liberal and marketregulated system Although the hopes connected with this alternative system turned out to be misplaced and the planned economy may be thoroughly discredited today it is important to understand the context in which it developed and failed This study a bestseller in its German version offers an in depth exploration of the GDR economy s starting conditions and the obstacles to growth it confronted during the consolidation phase These factors however were not decisive in the GDR s lack of growth compared to that of the Federal Republic As this study convincingly shows it was the economic model that led to failure
