Sport im Film Robert Gugutzer, Barbara Englert, 2014-10-01 Lange Zeit von den Sozial und Kulturwissenschaften ignoriert und als blo ße Mainstream Unterhaltung stigmatisiert erlangt der Sportfilm zunehmend wissenschaftliche Aufmerksamkeit Der interdisziplinäre angelegte Band verdeutlicht das vielfältige und vielschichtige gleichwohl noch nicht annähernd ausgeschöpfte wissenschaftliche Analyse und Reflexionspotenzial des Sportfilms Die Beiträge der national und international renommierten Autorinnen und Autoren fokussieren im Besonderen den Sportpielfilm mit seinen zahlreichen Subgenres wie Football Basketball Box Olympia und Kampfsportfilm Das steigende Interesse am Sportfilm resultiert aus der wachsenden Einsicht dass es sich hierbei um ein Genre handelt das pointiert gesellschaftliche Zustände kulturelle Ideologien sowie politisch ökonomische Strukturen reflektiert und kritisiert Der Sportfilm thematisiert historische Ereignisse gesellschaftliche Entwicklungen wie auch individuelle und kollektive Anti Helden Er gibt Aufschluss über kulturspezifische Besonderheiten des Sports und dessen Verflechtung mit anderen gesellschaftlichen Handlungsfeldern

Darüber hinaus inszeniert er zeitgeisttypische und zugleich allgemeingültige Körperideale, Werte, Konflikt und Handlungsmuster. Der Sportfilm reproduziert damit nicht nur gesellschaftliche und sportliche Wirklichkeit, sondern konstruiert sie im Medium einer emotional wirksamen Bildsprache gleichermaßen mit **Yearbook of International Sports Arbitration 2018-2020** Antoine Duval, Antonio Rigozzi, 2023-08-22. The Yearbook of International Sports Arbitration is the first academic publication aiming to offer comprehensive coverage on a yearly basis of the most recent and salient developments regarding international sports arbitration through a combination of general articles and case notes. The present volume covers decisions rendered by the Court of Arbitration for Sport (CAS) and national courts significant international and domestic between 2018-2020. It is a must-have for sports lawyers, arbitrators and researchers engaged in this field. From the ECtHR's landmark ruling in the Mutu-Pechstein case through the Russian doping scandal to the first Sun Yang award, it features in-depth articles on important issues raised by international sports arbitration as well as independent commentaries by academics and practitioners on the most significant international and domestic decisions rendered in the period under review. Dr. Antoine Duval is Senior Researcher at the T.M.C. Asser Instituut in The Hague and heads the Asser International Sports Law Centre. Prof. Antonio Rigozzi teaches international arbitration and sports law at the University of Neuchâtel, Switzerland, and is the partner in charge of the sports arbitration practice at Lvy Kaufmann Kohler, a Geneva-based law firm specializing in international arbitration.

The Sports Doping Market Letizia Paoli, Alessandro Donati, 2013-09-14. This book examines sports doping from production and distribution, detection and punishment. Detailing the daily operations of the trade and its gray area as a semi-legal market, the authors cover important issues ranging from athletes most at risk to the role of organized crime in sports doping and whether sports governing bodies are enabling the trade. Challenges for law enforcement and legislation and efforts to control PED use in the worldwide sports community and among aspiring athletes are also discussed in depth. The book's extensive research estimates the demand for performance-enhancing products, traces the route from legal substances to illegal uses, identifies classes of suppliers and their methods of operation, tracks typical distribution systems from suppliers to users, examines the economics of the market (prices, profits, revenue), assesses the state of anti-doping law enforcement efforts. Starting with an unprecedented case study in Italy, the intense scrutiny from one pivotal country yields a potential template for research and policy on a world scale. Doping and Sport makes solid contributions to the work of researchers in criminology and criminal justice, particularly with an interest in corruption, drug trafficking and criminal networks, researchers in sports science and public health and policymakers.

Sport and International Politics Pierre Arnaud, Professor Jim Riordan, 2013-07-04. Sociology and history of sport is a fast-rising subject. There is a growing interest in issues associated with globalization and sport culture across European and North American boundaries. This book fills an important gap. At the forefront of new areas of research in sport studies, it deals with a significant historical period systematically and above all internationally. Brought together in a single volume, this work

examines the shaping of sport both by the fascist and communist institutions of Europe during the interwar period. It shows how sport was used as an instrument of propaganda and psychological pressure by major political and sporting nations as well as international movements such as the Catholic Church and the International Worker Sport Movement. This volume will be a key reference for researchers and students in sports history, sports sociology, politics and European studies. *Corpus Approaches to the Language of Sports* Marcus Callies, Magnus Levin, 2019-09-19. Recent decades have seen a fundamental change and transformation in the commercialisation and popularisation of sports and sporting events. *Corpus Approaches to the Language of Sports* uses corpus resources to offer new perspectives on the language and discourse of this increasingly popular and culturally significant area of research. Bringing together a range of empirical studies from leading scholars, this book bridges the gap between quantitative corpus approaches and more qualitative multimodal discourse methods. Covering a wide range of sports including football, cycling and basketball, the linguistic aspects of sports language are analysed across different genres and contexts. Highlighting the importance of studying the language of sports alongside its accompanying audio-visual modes of communication, chapters draw on new digitised collections of language to fully describe and understand the complexities of communication through various channels. In doing so, *Corpus Approaches to the Language of Sports* not only offers exciting new insights into the language of sports but also extends the scope of corpus linguistics beyond traditional monomodal approaches to put multimodality firmly on the agenda. *Managing Sports Teams* Stefan Walzel, Verena Römisch, 2020-10-29. This handbook offers a comprehensive overview of the most important and fundamental elements for the management of team sports organisations. It is intended to meet the needs of full-time and voluntary individuals in management positions in professional and semi-professional sports clubs, leagues and federations and those who aspire to such positions. In addition to management-relevant aspects, its interdisciplinary approach also includes the basics of law and media, which are vital to the successful management of team sports organisations. Bringing together experts from the respective disciplines, the book's content is presented in a clear and straightforward manner, facilitating its implementation in practice. **Routledge Companion to Sports History** S. W. Pope, John Nauright, 2009-12-17. This book describes how the field of sports history has matured dramatically over the past decade and expands on what this means for sports historians today. The specially commissioned essays addressing a range of thematic and regional contexts that make up this companion make it a uniquely valuable resource. **Skiing**, 1979-01. **Swiss International Sports Arbitration Reports (SISAR) - Vol. 1** Paolo Michele Patocchi, Matthias Scherer, 2012-06-01. The Swiss International Sports Arbitration Reports provides for the first time a full English translation of the decisions made by the Swiss Federal Supreme Court in setting aside proceedings against awards made by Court of Arbitration for Sport (CAS) panels, irrespective of whether the original decision was published in the German, French or Italian language or whether the decision has been officially published or is simply available on the Court's website. The English translation is presented parallel to the original text of

each decision and is preceded by a head note and a summary of the decision for the reader in a hurry The importance of the CAS based in Lausanne is well known to all practitioners engaged in sports law and arbitration It was once famously described as the Supreme Court of World Sports Whether a CAS panel decides in ordinary arbitration proceedings or in an appeal brought against the decision of a federation association or sports related body the Swiss Federal Supreme Court in Lausanne has the last word where the dissatisfied party challenges the CAS panel s decision in court proceedings This work is edited by two well known Swiss practitioners both of whom are engaged full time in international arbitration as counsel and arbitrators and have published widely on issues of international law and arbitration This publication will be of great use to arbitrators parties lawyers involved in sports arbitration as well as commentators who will benefit from access to case law in one key jurisdiction for international sports arbitration Catalogue of Works on Sporting Sutton, Albert, bookseller,1904
