The Eclectic Trainer:

Training the Counsellor Mary Connor, 2006-04-14 In *Training the Counsellor* Mary Connor shares a decade of training experience to provide an invaluable resource for other counsellor trainers. The role of the trainer as facilitator, educator, and assessor, as well as key professional and ethical issues, are all brought vividly to life through many case examples. The focal point of the book is the integrative four-stage model for training competent and reflective counsellors, with the relationship between trainee and client at the core of the model. The four stages are the development of attitudes and values, knowledge and skills, client work, and supervision, reflection, and evaluation. Building on this model and drawing on her own wealth of experience, the author explores the interface between being professional and being human. *Training the Counsellor* offers stimulating reading and tested guidelines for good practice for all those involved in training other helping professionals.

The Integrative Family Therapy Supervisor: A Primer Robert E. Lee, Craig A. Everett, 2004-03 The textbook is designed to replace the standard treatise with one more reader friendly, integrative, in orientation, practical, and pragmatic, and full of exercises for the skills necessary for the AAMFT Approved Supervisor credential. The Horse Trainer's Secret Allison Leigh, 2021-07-27 In New York Times bestselling author Allison Leigh's latest book in the *Return to the Double C* miniseries, she wants to trust him but can she trust herself to let him in? Could she finally fall in love? With her baby's father? When Megan Forrester succumbs to one remarkable night with Nick Ventura and finds herself pregnant, the fiercely independent horse trainer resolves to raise the baby herself. But when Nick becomes the architect on a ramshackle Wyoming ranch, Megan's helping friends turn into a guest resort that resolves soon, weakens. After all, Nick's the total package: gorgeous, capable, and persistent. Not to mention the father of her child. If only she could tell him. From *Harlequin Special Edition*. Believe in love. Overcome obstacles. Find happiness. Return to the Double C The Contemporary Relational Supervisor Robert E. Lee, Thorana S. Nelson, 2013-07-18 *The Contemporary Relational Supervisor* is an empirically based, academically sophisticated, and learner friendly book on the cutting edge of couple and family therapy supervision. Appropriate for master's and doctoral level students, as well as experienced clinicians who wish to learn about supervision, it emphasizes system and relational thinking and intervention while privileging the diversity of training system members, their realities, experiences, and interpretations of life. The authors are attuned throughout the text to how and where clinical training and services are provided, and to whom, and provide detailed literature reviews for readers. These factors assist their discussion of the socio-historic development of the AAMFT supervision designation and the fundamentals, contexts, philosophy, relationships, and pragmatics of CFT supervision. They also discuss major models and approaches, evaluation, ethical and legal issues, and therapist development. Perhaps most important is their presentation of methods that help tailor and extend supervision practices to meet the clinical, institutional, and economic realities that CF therapists navigate. Readers are engaged by the discussions and exercises at the end of each chapter, which help them to feel more grounded in a topic, to have their own

voices heard and to be granted insight through experiencing multiple realities This valuable reference prepares the next wave of cutting edge CFT supervisors those who are knowledgeable skilled and realistically confident
