The Ecology And Semiotics Of Language Learning A Sociocultural Perspective Educational Linguistics:

The Ecology and Semiotics of Language Learning Leo van Lier, 2006-04-18 In this book I try to give a coherent and consistent overview of what an ecological approach to language learning might look like This is not a fully fledged grand theory that aims to provide an explanation of everything but an attempt to provide a rationale for taking an ecological world view and applying it to language education which I regard as one of the most important of all human activities Goethe once said that everything has been thought of before but that the difficulty is to think of it again The same certainly is true of the present effort If it has any innovative ideas to offer these lie in a novel combination of thoughts and ideas that have been around for a long long time The reader will encounter influences that range from Spinoza to Bakhtin and from Vygotsky to Halliday The scope of the work is intentionally broad covering all major themes that are part of the language learning process and the language teaching profession These themes include language perception and action self learning critical pedagogy and research At the same time I have attempted to look at both the macro and the micro sides of the ecological coin and address issues from both a theoretical and a practical perspective This then aims to be a book that can be read by practitioners and theoreticians alike and the main idea is that it should be readable and challenging at the same time

Interaction, Language Use, and Second Language Teaching Thorsten Huth, 2020-09-01 This book presents a view of human language as social interaction illustrating its implications for language learning and second language teaching The volume advocates for researchers practitioners and administrators to rethink and reconceptualize an understanding of language beyond that of the written word to one encompassing social and interactional activity built on co construction collaboration and negotiation The book emphasizes the ways in which this view of language can shed light on the language learning process as one which draws on discrete linguistic units and constructions in conjunction with a range of temporal sequential and embodied resources across a variety of social contexts In turn these insights prompt further reflection and discussion on their implications for advancing second language teaching practice This book will be key reading for scholars interested in second language teaching research as well as active second language teachers and language program administrators

Education and Society in the Middle East and North Africa Milton George, S. Sergio Saleem Scatolini, 2020-01-17 In the past the Middle East and the so called Muslim world used to be beacons of learning and critical thought Although historical variables such as conquest internal conflict and colonization demoted their position on the global stage changes are now in the offing In these interesting times a growing number of educators thinkers and visionaries are trying both to find and to generate new approaches to the past present and future of the region This book is a collection of articles which reflect on various aspects related to education and society in the Middle East and North Africa also known as the MENA region their peoples and

educational processes It provides a platform for people to join the global conversation and to contribute to it with data which are relevant to regional concerns research and practices This is necessary because many of the theories and research findings which are still being used to understand the region were generated elsewhere and despite their lack of regional representativeness were generalized as the most trustworthy interpretive tools across the world Hence there is a need for the world to open up to the voices from the MENA region

Intercultural Learning in Modern Language Education Erin Kearney, 2015-12-03 Winner of the 2015 16 Kenneth W Mildenberger Prize

awarded by the Modern Language Association Many educators aim to engage students in deeply meaningful learning in the language classroom often facing challenges to connect the students with the culture of the language they are learning This book aims to demonstrate that substantial intercultural learning can and does occur in the modern language classroom and explores the features of the classroom that support meaningful culture in language learning The author argues that transformative modern language education is intimately tied to a view of language learning as an engagement in meaning making activity or semiotic practice The empirical evidence presented is analyzed and then linked to both the theorizing of culture in language teaching and to practical concerns of teaching
