Toward Entrepreneurial Community Development Michael Fortunato, Morgan Clevenger, 2017-03-31 Toward Entrepreneurial Community Development is about developing

entrepreneurial communities and goes beyond theories of the firm to demonstrate how local and regional society contributes in important ways to the vitality of entrepreneurs. The literature is rich with insights about leadership and culture within SMEs and the behaviours and attitudes of their founders, founding teams and managers. Since most of the attention in the entrepreneurship literature is focused on firms, we wish to explore everyone else. The social environment surrounding the entrepreneur and how leadership and culture outside the firm can have pervasive effects on the business. This book reaches across disciplinary boundaries, integrating and advancing knowledge on entrepreneurial community development. The book identifies actionable leadership strategies that can be used by literally anyone to help make a community or region a more culturally supportive, interactive home for entrepreneurial minds. We draw from original research to compare high and low entrepreneurship communities and present an emergent picture of how community level actors can or fail to work together to support entrepreneurship in places that are culturally distant from the Silicon Valley, i.e. most places. *Toward Entrepreneurial Community Development* then offers techniques for entrepreneurial community leadership, including how to build lasting alliances, create an image and harness the local culture for entrepreneurial advantage. The result is a book that provides the reader with the latest advancements and techniques in entrepreneurship development in a straight forward, readable format. No matter the reader, *Toward Entrepreneurial Community Development* demonstrates how anyone in any position can lead a local entrepreneurship movement starting anywhere, anytime. *Rethinking Social Capital and Entrepreneurship in Greater China* Jenn-Hwan Wang, Ray-May Hsung, 2016-05-05. Family networks and wider personal social relationships, *guanxi*, have long been held to be a significant factor making for the success of many Chinese family businesses, and *guanxi* is often seen as a special characteristic which shapes the nature of all business in China. This book re-examines this proposition critically, bringing together the very latest research and comparing the situation in different parts of Greater China: mainland China, Taiwan and Hong Kong. It considers entrepreneurship, venture capital, intergenerational succession, disputes, family businesses in different sectors of the economy and particular family businesses. Among the book's many interesting conclusions is the observation that *guanxi* capitalism has evolved in different ways in the different parts of Greater China, with the particular institutional setting having a major impact. **Transnational and Immigrant Entrepreneurship in a Globalized World** Barbara Anne Carmichael, Israel Drori, Benson Honig, 2010-01-01. *Transnational and Immigrant Entrepreneurship in a Globalized World* brings together leading international scholars from a cross disciplinary basis to examine the economic, social, regulatory, technological and theoretical issues related to the impact of transnational entrepreneurs on business and economic development.
