The Economics Of National Issues:

The Economics of National Issues Roger LeRoy Miller, 1972 **Issues in Indian Economy: National & Global Perspectives** Dr. A. Navinkumar, **U.S. Army War College Guide to National Security Issues: Theory of war and strategy** J. Boone Bartholomees, Army War College (U.S.). Strategic Studies Institute, 2012

This edition of the U S Army War College Guide to National Security Policy and Strategy continues to reflect the structure and approach of the core national security strategy and policy curriculum at the War College The 5th Edition is published in two volumes that correspond roughly to the Department of National Security and Strategy s core courses Theory of War and Strategy and National Security Policy and Strategy Like previous editions this one is based on its predecessor but contains both updates and new scholarship Over a third of the chapters are new or have undergone significant rewrites Many chapters some of which appeared for years in this work have been removed Nevertheless the book remains unchanged in intent and purpose Although this is not primarily a textbook it does reflect both the method and manner we use to teach strategy formulation to America s future senior leaders The book is not a comprehensive or exhaustive treatment of either strategic theory or the policymaking process Both volumes are organized to proceed from the general to the specific Thus the first volume opens with general thoughts on the nature and theory of war and strategy proceeds to look at the complex aspect of power and concludes with specific theoretical issues Similarly the second volume begins by examining the policy strategy process moves to a look at the strategic environment and concludes with some specific issues This edition continues the effort begun in the 4th Edition to include several short case studies to illustrate the primary material in the volume

National Security Issues of the USSR Murray Feshbach, 2012-12-06 LORD CARRINGTON Secretary General North Atlantic Treaty Organisation In providing a foreword to this volume I have to declare an interest I was and am still an enthusiastic advocate of the idea of having a resident Sovietologist at NATO headquarters Indeed I wondered how the work of the organisation had been done for so long without the benefit of a resident expert on a subject of such crucial interest I was therefore delighted when an American academic of high reputation Murray Feshbach joined us as our first Sovietologist I was also encouraged that he decided to organise last November a Workshop in which NATO staff could take part and which would attract prestigious participants from all the countries of this alliance I saw for myself the high level of interest created by the Workshop and judge it to have a very considerable success I hope there will be other similar events in the future There is no doubt that in the light of the series of developments and changes launched over recent months by Mr *Economics and National Security* Dick K.
