faith While each of them is worth knowing by themselves it is largely because of their standing within that web of social relations woven about and around Paul that they are of lasting interest Through this series we hope to come to know those persons in ways befitting their first century Mediterranean culture Paul s network is a complex collection of people many of whom receive only the slightest acknowledgment in the New Testament While Titus receives more than a cursory mention the writings that include him come from different generations of Jesus followers In Titus Honoring the Gospel of God Ken Stenstrup makes the distinction between these generations of writings and by employing social scientific methods uses Titus to shed light on Paul as a change agent and leader As one of Paul s coworkers Titus provided stability and guidance to early Jesus groups He was welcomed by these groups and reported their hospitality to Paul Stenstrup emphasizes the collectivistic culture of the first century and explains how this influenced the relationships between Paul Titus and the early Jesus groups Ken Stenstrup teaches a variety of introductory level Scripture courses at Saint Mary s University of Minnesota For several years he has been a member of the Social Sciences and New Testament Interpretation task force of the Catholic Biblical Association First and Second Timothy and Titus (Paideia: Commentaries on the New Testament) Christopher R.
