

Efficient Steps to Writing Research Summary

1

Decide what your summary will cover

2

Take a quick look at the article

3

The article should be read one or two times

4

Write a summary of each section using your own words

5

Rather than evaluating the findings, report them

6

Be brief when summarizing

7

State the research question and hypothesis

8

Discuss the results and their significance

9

Correct errors and improve the flow of the summary

International Handbook of Educational Leadership and Administration Kenneth A. Leithwood, Judith Chapman, P. Corson, P. Hallinger, Ann Hart, 2012-12-06 EDITORS This introduction to the *International Handbook of Educational Leadership and Administration* describes some of the motivation for developing the book and several assumptions on which is based much of the work represented in its 31 chapters A synopsis of the contents of those chapters is also provided

SOME KEY ASSUMPTIONS It is sometimes suggested that the search for an adequate understanding of leadership is doomed to fail After all there is little evidence of agreement about the concept in spite of prodigious efforts dating back hundreds if not thousands of years Such a view is captured for example in Bennis observation that Of all the hazy and confounding areas in social psychology leadership theory undoubtedly contends for top nomination Probably more has been written and less is known about leadership than any other topic in the behavioural sciences 1959 page 259 We do not find this state of affairs discouraging nor entirely accurate and of course it did not prevent Bennis from proceeding either One reason for our desire to continue in the face of such discouraging words is that a great deal of leadership research aspires to develop a general theory a theory which applies to all or most domains

of organized human activity This aspiration inevitably produces decontextualized and therefore abstract categories of practice Howard Gardner s 1995 depiction of leadership as story telling is a case in point *Qualities of Effective Principals* James H. Stronge,Xianxuan Xu,2021-04-28 What does it take to be a good school principal No two principals work exactly the same way but research shows that effective principals focus on a core set of factors critical to fostering success among all students In this second edition of *Qualities of Effective Principals* James H Stronge and Xianxuan Xu delineate these factors and show principals how to successfully balance the needs and priorities of their schools while continuously developing and refining their leadership skills Throughout the book the authors provide practical tools and extensive research that will help principals Assess exhibit and harness instructional leadership to meet a school s goals Foster and sustain an effective school climate for learning Select support and retain high quality teachers and staff Manage school resources effectively and efficiently Create maintain and strengthen internal and external community relationships Define their role in student achievement This book also includes practical skills checklists along with quality indicators and red flags for effective leadership *Qualities of Effective Principals 2nd Edition* is an excellent resource for both experienced and new principals committed to developing and leading strong schools that help all students succeed *Approaches to Administrative Training in Education* Joseph F. Murphy,Philip Hallinger,1987-07-01 In this important new collection Murphy and Hallinger bring together descriptions of a wide range of the new models in use in educational administrative training Most of these eleven models have developed in response to contemporary criticism of the educational administrative theory movement and each in its own way strives to bridge the chasm between educational theory and practice The approaches represented here stress the importance of the administrators engagement in the daily life of the school and encourage administrators to learn from one another While some models have come from leadership academies others have been developed and tested in state departments of education professional associations and educational institutions The book represents an important resource for those working with pre and inservice administrators as they learn ways in which their involvement can improve the nation s schools **Resources in Education** ,1994 **Change in Schools** Gene E. Hall,Shirley M. Hord,1987-01-01 This book summarizes nearly fifteen years of research in schools research geared toward understanding and describing the change process as experienced by its participants It addresses the question What can educators and educational administrators do on a day to day basis to become more effective in facilitating beneficial change The book provides research based tools techniques and approaches that can help change facilitators to attain this goal The authors contend that in order to be more effective educators must be concerned based in their approach to leadership Early chapters deal with teachers evolving attitudes concerns and perceptions of change as well as their gradually developing skills in implementing promising educational innovations The authors next turn to examine the role of the school principal and other leaders as change facilitators and present ways that they can become better informed about the developmental state of teachers as well as how

to use these diagnostic survey and data as the basis for facilitating the change process The emphasis is on practical day to day skills and techniques showing administrators how to design and implement interventions that are supportive of teachers and others Each chapter presents not only the concepts and research of the authors but also translates the concepts in concrete applications which illustrate the ways they can be applied to obtain genuine and lasting improvements The book also contains an important discussion and description of the change process focusing on teachers innovations and the schools

Managing the Primary School Tim Hill, 2018-05-11 Originally published in 1989 This book which was one of the first to take account of the recommendations of the Education Reform Act which came into effect in September 1988 provides a practical overview of primary school management from resources which include staff space equipment and finance to relationships with outside bodies governors parents teachers children and non teaching staff **ERIC Clearinghouse Publications**, 1983 *Formation and Development for Catholic School Leaders: The principal as educational leader* Maria J. Ciriello, 1998-04 Addresses seven competencies in leadership and nine in curriculum and instruction Includes more than 150 sources in the bibliography **An Analysis of the Aspiring Principal Preparation Programs Provided by Florida School Districts** Deborah E. Lawrence, 2010-03 The purpose of the study was to identify the basis of the aspiring principal preparation program APPP components Florida school districts provide to their aspiring principals and their relationship if any to the state and ISLLC Standards A total of 50 school districts in Florida participated in this study The research was guided by the following questions To what extent do the Florida school districts provide a formal APPP to their current assistant principals b Upon what are the formal APPPs for current assistant principals based the Florida Principal Competencies FPCs the Interstate School Leaders Licensure Consortium ISLLC Standards or another source c To what extent do the school district APPPs in the 67 Florida districts have component requirements that include professional development mentoring and a performance based experience and d Are there differences among the APPP components provided by Florida school districts of various sizes The findings of the study were found through an examination of quantitative and qualitative data that were collected from the Florida Aspiring Principal Program Assessment FLAPPA survey and the school districts APPP brochures located on their websites This study supported the following conclusions a 75% of the school districts in Florida do provide an APPP for their aspiring principals b the FPCs and the ISLLC Standards are a part of the bases of the components found in APPPs provided by Florida school districts c Florida school districts do provide APPPs that include components of a mentor principal a performance based experience and professional development d very large sized school districts with a population over 100 thousand students contained the largest percentage of standards based components in the APPP small sized school districts with a population of under 7 thousand students contained the least percentage of standards based components in the APPP e school districts in Florida recognized the need to modify and were in the process of modifying their APPPs according to the new Florida leadership standards especially the component of

technology and a lack of funding time and assessment were identified as APPP weaknesses and components in need of improvement. Recommendations of this study included a further research on Florida school districts redesign of their APPP components to identify whether or not the components are based upon the new Florida Leadership Standards especially technology and the ISLLC educational standards and b further research on Florida school districts providing a mentor principal and support team professional development and a performance based experience to their current assistant principals who participate in an APPP thus ensuring best practices in the APPP and improving the quality of their future principals.

Restructuring Education Simon Hakim, Daniel Ryan, Judith C. Stull, 2000-08-30 American education is undergoing rapid change. Concern over poor student performance, the ability and motivation of teachers, and the inefficiency of school bureaucracy have led to numerous recommendations for changing the structure of American education. These vary from small changes in the current structure to wholesale privatization of public schools. The contributions in this book discuss a wide range of proposals including greater school choice, charter schools, promoting contact with the business community, public-private partnerships, and more. Several chapters assess the current research on choice and restructuring. Overall, the consensus is that proposed reforms have a good chance of yielding significant benefits.
