Kamba Folklore ... with Liguistic, Ethnographical and Comparative Notes Gerhard Lindblom,1928 **The Retreat of the Elephants** Mark Elvin,2020-08-11 The eminent China scholar delivers a landmark study of Chinese culture s relationship to the natural environment across thousands of years of history Spanning the three millennia for which there are written records The Retreat of the Elephants is the first comprehensive environmental history of China It is also a treasure trove of literary political aesthetic scientific and religious sources which allow the reader direct access to the views and feelings of Chinese people toward their environment and their landscape China scholar and historian Mark Elvin chronicles the spread of the Chinese style of farming that eliminated elephant habitats the destruction of most of the forests the impacts of war on the landscape and the re engineering of the countryside through gigantic water control systems He documents the histories of three contrasting localities within China to show how ecological dynamics defined the lives of the inhabitants And he shows that China in the eighteenth century was probably more environmentally degraded than northwestern Europe around

this time Indispensable for its new perspective on long term Chinese history and its explanation of the roots of China's present day environmental crisis this book opens a door into the Chinese past *Letters from the Hive* Stephen Buchmann, Banning Repplier, 2006-05-30 They work hard are devoted to family love sex and know the importance of a good piece of real estate Honey bees and the daily workings of their close knit colonies are one of nature's great miracles And they produce one of nature's greatest edible bounties honey More than just a palate pleaser honey was once an offering to the gods a preservative and a medicine whose sought after curative powers were detailed in ancient texts and are being rediscovered by modern medical science In *Letters from the Hive* Prof Stephen Buchmann takes us into the hive nursery honey factory queen's inner sanctum and out to the world of backyard gardens open fields and deserts in full bloom where the age old sexual dance between flowers and bees makes life on earth as we know it possible Hailed for their hard work harmonious society and mistakenly for their celibacy bees have a link to our species that goes beyond biology In *Letters from the Hive* Buchmann explores the fascinating role of bees in human culture and mythology following the honey hunters of native cultures in Malaysia the Himalayas and the Australian Outback as they risk life and limb to locate a treasure as valuable as any gold To contemplate a world without bees is to imagine a desolate place culturally and biologically and Buchmann shows how with each acre of land sacrificed to plow parking lot or shopping mall we inch closer to what could become a chilling reality He also offers honey based recipes cooking tips and home remedies further evidence of the gifts these creatures have bestowed on us Told with wit wisdom and affection and rich with anecdote and science *Letters from the Hive* is nature writing at its best This is natural history to be treasured a sweet tribute that buzzes with life *Scenes and Adventures as a Soldier and Settler During Half a Century* John Wedderburn Dunbar Moodie, 1866 *The Cult of the Goddess Pattini* Gananath Obeyesekere, 1987-01-01 Pattini goddess virgin wife and mother folk deity of Sinhala Buddhists and Jains and assimilated goddess of the Hindu pantheon has been worshiped in Sri Lanka and South India for fifteen hundred years or more as she still is today This long awaited book is the culmination of Gananath Obeyesekere's comprehensive study of the Pattini cult and its historical sociological and psychoanalytical role in the culture of South Asia A well known anthropologist and a native of Sri Lanka Obeyesekere displays his impeccable scholarship and a stunning range of theoretical perspectives in this work the most detailed analysis of a single religious complex in South Asian ethnography and possibly in all of anthropology Since 1955 Obeyesekere has observed and participated in modern performances of the rituals of worship healing and propitiation in the Pattini cult particularly the postharvest ritual known as the *gammaduva* He presents detailed texts of the *gammaduva* placing them in their historical and mythic traditions Using the texts he formulates a cultural analysis of the Buddhist pantheon and a critique of empiricist notions of South Asian historiography Obeyesekere shows that some seemingly historical figures of South India and Sri Lanka are mythic characters and that their historical significance can best be understood by an anthropological analysis of myth rather than through a reification of myth in

history The concurrent Hindu worship of Pattini with its myths and rituals is described in detail Obeyesekere documents the Sanskritization of Pattini the changing physical structures of the goddess's shrines from the 1930s to the present the assumption by Brahman priests of ritual functions formerly carried out by folk priest and the sociocultural causes of these changes He traces too the origins and diffusion of the cult throughout its entire history as well as its survival today Of psychological interest is the problematic status of Pattini as virgin wife and mother and her relationship with her god husband Palanga and his courtesan Madevi Obeyesekere discusses the psychodynamics of this relationship in detail and explains its role in Hindu Buddhist socialization and family structure Further he uses this analysis to account for local variations in the performance and structure of the ritual The ritual of the killing and resurrection of Pattini's husband and her role as mater dolorosa will interest scholars of comparative religion

Jataka Tales of the Buddha (Volume II) Ken and Visakha Kawasaki, 2018-02-15 Whereas Western intellectuals seek the essence of Buddhism in its doctrines and meditation practices the traditional Buddhists of Asia absorb the ideas and values of their spiritual heritage through its rich narrative literature about the Buddha and his disciples The most popular collection of Buddhist stories is without doubt the Jatakas These are the stories of the Buddha's past births relating his experiences as he passed from life to life on the way to becoming a Buddha At times he takes the form of a bird at times he is born as a hare a monkey a prince a merchant or an ascetic but in each case he uses the challenges he meets to grow in generosity virtue patience wisdom and compassion This anthology of Jatakas ably told by Ken and Visakha Kawasaki remains faithful to the original yet presents the stories in clear and simple language It thereby makes the Jatakas accessible even to young readers and to those for whom English is not their first language
