The End The Dogs Of War Washington Dc:

The End Tyranny Games,2003-02 *Leashing the Dogs of War* Chester A Crocker,Fen Osler Hampson,2007 The definitive volume on the sources of contemporary conflict and the array of possible responses to it **The New Dogs of War** Ward Thomas,2021-09-15 As Ward Thomas details in *The New Dogs of War* militias and paramilitary groups wield greater power than national governments in many countries while in some war zones private contractors perform missions previously reserved for uniformed troops Most ominously terrorist organizations with global reach have come to define the security landscape for even the most powerful nations Across the first decades of the twenty first century we have witnessed a dramatic rise in the use of military force by these nonstate actors in ways that have impacted the international system leading Thomas to undertake this valuable assessment of the state of play at this critical moment To understand the spread of nonstate violence Thomas focuses on the crucial role played by an epochal transformation in international norms Since the eighteenth century the Westphalian model of sovereignty has reserved the legitimate use of force to states Thomas argues that normative changes in the decades after World War II produced a crisis of coherence for formal and informal rules against nonstate violence In detailed case studies of nonstate militias transnational terrorist networks and private military contractors Thomas explains how forces contesting state prerogatives exploited this crisis which in turn reshaped international understandings of who could legitimately use force By considering for the first time all three purveyors of nonstate violence as aspects of the same phenomenon *The New Dogs of War* explains this fundamental shift in the norm that for centuries gave states the monopoly on military force *Shakespeare and Animals* Karen Raber,Karen Edwards,2022-08-25 This encyclopaedic account of animals in Shakespeare s plays and poems provides readers with a much needed resource by which to navigate the recent outpouring of critical and historical work on the topic This dictionary extends its coverage to include insects fish and mythic creatures as well as the places practices and lore pertaining to all animal oriented experiences of early modern life It emphasizes the role of animality in defining character and is attentive to the instabilities of the human animal boundary as they were theatrically represented exploited and interrogated but it is also concerned with the material presence of animals on stage and in everyday life in Shakespeare s world The volume is a new tool for instructors but is also a resource for critics and scholars in the many disciplines engaged with animal studies posthumanist theory ecostudies and cultural studies The Dog Fancier Eugene Glass,1919 *Counterinsurgency and the United States Marine Corps* Leo J. Daugherty III,Rhonda L. Smith-Daugherty,2018-02-08 Volume 2 continues the history of the U S Marine Corps involvement in small wars after World War II beginning with advisory efforts with the Netherlands Marine Korps 1943 1946 The authors describe counterinsurgency efforts during the Korean War 1950 1953 the development of vertical assault tactics in the late 1940s 1950s and 1960s counterinsurgency in Southeast Asia 1962 1975 involvement in Central America 1983 1989 and present day conflicts including the War on Terror and operations in Iraq and Libya **Air**
