The ledge is part of a larger, rugged rock formation on the left side of the image. Below the ledge is a body of water, and the background is a hazy, overcast sky. The overall scene conveys a sense of challenge and balance.

decade of research in primary sources Blanton and Cook document over 240 women in uniform and find that their reasons for fighting mirrored those of men patriotism honor heritage and a desire for excitement Some enlisted to remain with husbands or brothers while others had dressed as men before the war Some so enjoyed being freed from traditional women's roles that they continued their masquerade well after 1865 The authors describe how Yankee and Rebel women soldiers eluded detection some for many years and even merited promotion Their comrades often did not discover the deception until the young boy in their company was wounded killed or gave birth In addition to examining the details of everyday military life and the harsh challenges of warfare for these women which included injury capture and imprisonment Blanton and Cook discuss the female warrior as an icon in nineteenth century popular culture and why twentieth century historians and society ignored women soldiers contributions Shattering the negative assumptions long held about Civil War distaff soldiers this sophisticated and dynamic work sheds much needed light on an unusual and overlooked facet of the Civil War experience
