John Williams, 2014-06-24 The writers and artists described in this book are joined by a desire to embrace Eastern aesthetics as a means of redeeming Western technoculture The assumption they all share is that at the core of modern Western culture there lies an originary and all encompassing philosophical error and that Asian art offers a way out of that awful matrix That desire this book attempts to demonstrate has informed Anglo and even Asian American debates about technology and art since the late nineteenth century and continues to skew our responses to our own technocultural environment

Imaginary Futures Richard Barbrook, 2007-04-20 This book is a history of the future It shows how our contemporary understanding of the Internet is shaped by visions of the future that were put together in the 1950s and 1960s At the height of the Cold War the Americans invented the only working model of communism in human history the Internet Yet for all of its libertarian potential the goal of this hi tech project was

geopolitical dominance the ownership of time was control over the destiny of humanity The potentially subversive theory of cybernetics was transformed into the military friendly project of artificial intelligence Capitalist growth became the fastest route to the information society The rest of the world was expected to follow America s path into the networked future Today we re still being told that the Internet is creating the information society and that America today is everywhere else tomorrow Thankfully at the beginning of the twenty first century the DIY ethic of the Internet shows that people can resist these authoritarian prophecies by shaping information technologies in their own interest Ultimately if we don t want the future to be what it used to be we must invent our own improved and truly revolutionary future Vija Celmins Ian

For the first time, this Core Collection of the Henie Onstad Art Centre is the focus of a publication presented here together with a small selection of other artworks that have been chosen over the years. From the very start, the Henie Onstad Art Centre has played an important role as a national and international arena for the development of new forms of expression within the fields of music and performance, as well as the visual arts. However, the collection has always played a major role, and this book gives an exciting insight into this crucial aspect of the Art Centre. **Book Jacket** *Modern and Contemporary Art at Dartmouth* Hood Museum of Art, 2009. *Modern and Contemporary Art at Dartmouth* focuses on post-1945 painting, sculpture, works on paper, photography, and new media, including interactive and multimedia works. Each chapter concludes with a practical application section that details ways to integrate the concepts into workshops and personal development. Use the workshop and personal development suggestions to apply the eight practices into your daily life. Learn from the words and personal stories of highly respected leaders. Integrate the best of yourself and your life into your daily tasks and roles. This book is for anyone in a position of influence in an organization or those who train these individuals.
