American culture Through his work at Harvard and in the Arts and Crafts movement he articulated and promoted an aesthetic guided by an attachment to the past and he encouraged his students at Harvard to revive and reinterpret English and Anglo American models Another characteristic of Warren s aesthetic was restraint a quality generally attributed to the region s Puritan settlers Restraint also meant a rejection of both the lavish ornamentation of the Ecole des Beaux Arts in Paris and the more original styles such as Art Nouveau that were emerging at the turn of the century Following the ideals of John Ruskin William Morris and later leaders of the English Arts and Crafts movement Warren and his architect colleagues promoted a close collaboration with the craftsmen who enhanced their buildings The resulting building designs represent a significant contribution to the development of American Arts and Crafts architecture complementing the proto modern work of designers such as Frank Lloyd Wright In fact Arts and Crafts architecture in North America was extremely diverse Meister examines the greater complexity of this architecture by exploring the eclectic historicism of Warren a key figure in the movement that was centered in Boston
