The Asian Crisis And The Eus Global Responsibilities:

Asian Crisis Yao-Su Hu,1999 An examination of the Asian Crisis It asks how long it will take to get the Asian economies back on their feet what lessons can be learned from the crisis and whether national politicians should take the lead or the international community act decisively *Analytics of Systemic Crises and the Role of Global Financial Safety Nets* International Monetary Fund. Strategy, Policy, & Review Department,2011-05-31 In response to the global crisis the Fund overhauled its lending toolkit and boosted its resources strengthening its ability to pre empt financial crises This paper with the companion paper on Mapping Cross Border Financial Linkages takes another look at the recent global crisis in the context of a broader review of past systemic crises to i assess whether rising linkages across countries is a source of latent systemic instability and ii ascertain whether the global financial safety net GFSN is adequate to contain crisis and contagion risks arising from such systemic instability This paper develops a new methodology to identify systemic crises and reviews associated policy responses from a global rather than country level perspective **The Role of the European Union in Asia** Juha Jokela,2016-02-24 Establishing strategic partnerships is a key objective for the European Union These partnerships provide frameworks for flexible and long term cooperation with global and regional players This book focuses on the EU s strategy toward China and India and explores ways of promoting a stronger and more versatile role for the EU in Asia The volume examines the emergence of China and India as global powers and the implications for the EU s common policies and strategies It focuses on the role of the EU within Asia in terms of its political security related and cultural impact in addition to economic presence and it explores the interplay of the EU China and India in global governance and in utilizing and promoting multilateralism especially in the context of climate change and energy security The contributors discuss avenues for the EU to pursue its interests in Asia and to achieve its objectives in global governance and multilateralism through partnerships with China and India while retaining its special relationship with the United States *European Foreign Policy in an Evolving International System* N. modernization and development the author suggests that all mighty rivers are confluences of multiple tributaries Likewise an emerging society has to recognize that the dynamism of its history would also be derived from a confluence of multiple cultural traditions As a valuable resource for decision makers of developing countries this book will help to shed some light on the potential pitfalls and fallacies they may encounter in their search for a cultural identity and values to subscribe to among the many that are circulating in our globalized world *The European Union and China, 1949-2008* Francis
