plays *Blood Wedding*, *Yerma* and *The House of Bernarda Alba*. Feted by his contemporaries, Federico García Lorca's status has only grown since his death in 1936: poet, playwright, political martyr, gay icon, champion of women, defender of the oppressed. This book guides readers through the key themes and concerns in Lorca's work. It demonstrates how Lorca applied his poetic sensibilities and lyrical craft to what were in essence tangible real-life issues: the plight of Andalusia's Romani people, the idea of modernity and the condition of women in Spain. What becomes evident is that even though he was writing at a time when many writers and artists were less inclined to deal directly with the things of the world, Lorca maintained a profound interest in the human subject and in the world around him. It is this interest, the book argues, in tandem with his poetic vision and craft that ensured his most popular works enduring universal appeal. *At Five in the Afternoon* Federico García Lorca, 1997

Even after the assassination of Lorca in the Spanish Civil War and the banning of his work in Franco's Spain, the poet's legend proved inextinguishable and has now inspired a major motion picture from Sony: *The Disappearance of García Lorca* starring Andy Garcia. *The Theatre of García Lorca* Paul Julian Smith, 1998-05-28

A study of the plays of García Lorca, the greatest Spanish dramatist of the twentieth century. *García Lorca at the Edge of Surrealism* David F. Richter, 2014-10-15

García Lorca at the Edge of Surrealism: The Aesthetics of Anguish examines the variations of surrealism and surrealist theories in the Spanish context, studied through the poetry, drama, and drawings of Federico García Lorca (1898-1936). In contrast to the idealist and subconscious tenets espoused by surrealist leader André Breton, which focus on the marvelous, automatic creative processes and sublimated depictions of reality, Lorca's surrealist impulse follows a trajectory more in line with the theories of French intellectuals such as Georges Bataille (1897-1962), who was expelled from Breton's authoritative group. Bataille critiques the lofty goals and ideals of Bretonian surrealism in the pages of the cultural and anthropological review *Documents* (1929-1930) in terms of a dissident surrealist ethno-poetics. This brand of the surreal underscores the prevalence of the bleak or darker aspects of reality: crisis, primitive sacrifice, the death drive, and the violent representation of existence portrayed through formless base matter such as blood, excrement, and fragmented bodies. The present study demonstrates that Bataille's theoretical and poetic expositions, including those dealing with the formless and the somber emptiness of the void, engage the trauma and anxiety of surrealist expression in Spain, particularly with reference to the anguish, desire, and death that figure so prominently in Spanish texts of the 1920s and 1930s, often qualified as surrealist. Drawing extensively on the theoretical, cultural, and poetic texts of the period, *García Lorca at the Edge of Surrealism* offers the first book-length consideration of Bataille's thinking within the Spanish context, examined through the work of Lorca, a singular proponent of what is here referred to as a dissident Spanish surrealism. By reading Lorca's surrealist texts, including *Poeta en Nueva York*, *Viaje a la luna*, and *El público* through the Bataillean lens, this volume both amplifies our understanding of the poetry and drama of one of the most important Spanish writers of the twentieth century and expands our perspective of what surrealism in Spain means.
