## **The Aswan Solution:**

The Aswan Solution John Rowe, 1979-01-01      Mega-Dams in World Literature Margaret Ziolkowski, 2024-04-15

Mega Dams in World Literature reveals the varied effects of large dams on people and their environments as expressed in literary works focusing on the shifting attitudes toward large dams that emerged over the course of the twentieth century. Margaret Ziolkowski covers the enthusiasm for large dam construction that took place during the mid twentieth century heyday of mega dams, the increasing number of people displaced by dams, the troubling environmental effects they incur, and the types of destruction and protest to which they may be subject. Using North American, Native American, Russian, Egyptian, Indian, and Chinese novels and poems, Ziolkowski explores the supposed progress that these structures bring. The book asks how the human urge to exploit and control waterways has affected our relationships to nature and the environment and argues that the high modernism of the twentieth century, along with its preoccupation with development, casts the hydroelectric dam as a central symbol of domination over nature and the power of the nation state. Beyond examining the exultation of large dams as symbols of progress, *Mega Dams in World Literature* takes a broad international and cultural approach that humanizes and personalizes the major issues associated with large dams through nuanced analyses, paying particular attention to issues engendered by high modernism and settler colonialism. Both general and specialist readers interested in human environment relationships will enjoy this prescient book.

**Environmental Science: Systems and Solutions** Michael L.

McKinney, Robert M. Schoch, Logan Yonavjak, Grant Mincy, 2017-12-01

Putting the Science Back into the Environment: What is the big picture in environmental science? Our authors know and effectively communicate it in *Environmental Science: Systems and Solutions*, Sixth Edition. Whether you view the subject through a scientific, social, political, or historical lens, you'll find the concrete foundations here that work for courses in both environmental science and environmental studies. A systems approach is the connective fabric that makes sense of the wealth of topics and data, which demonstrates how aspects of the natural environment interconnect with each other and with human society. A section on Resource Use and Management introduces the concept of sustainability, and another on Dealing with Environmental Degradation discusses threats to the environment and mitigation strategies. A bonus section available online on Social Solutions to Environmental Concerns discusses the complex issues impacting the environment and the scientific, technologic, and human behavioral ways to address them. Throughout the text, you will find the hard data necessary for a scientific study of the environment and the measured analysis ideal for our time. Combining evidence-based contemporary information and data with relevant case studies, practical applications, numerous calculations, and modern references, *Environmental Science: Systems and Solutions* teaches and engages. Each new print copy includes Navigate 2 Advantage Access that unlocks a comprehensive and interactive eBook with two bonus chapters not found in the printed text, student practice activities and assessments, a full suite of instructor resources, and learning analytics reporting tools. Harsh K. Gupta,2012-12-06 A workshop on Induced Seismicity was organized during the 27th General Assembly of the International Association of Seismology and Physics of Earth s Interior IASPEI in Wellington New Zealand during January 10 21 1994 This volume presents a collection of 16 papers accepted for publication which accrued from this workshop The first three papers address mining activity related to induced seismicity The fourth paper deals with water injection induced seismic activity while the remaining 12 papers treat several aspects of water reservoir induced earthquakes Globally the Koyna dam creating Shivajisagar Lake in Maharashtra India continues to be the most significant site of reservoir induced earthquakes With the increase in the number of cases of induced seismicity there is a growing concern among planners engineers geophysicists and geologists to understand the environment conducive to this phenomenon While the changes in pore fluid pressure have been identified as the key factor in inducing earthquakes the phenomenon itself is still poorly understood This reality thus makes the study of the induced seismicity very important and this volume timely

**Environmental Hazards in the Arabian Gulf Region** Abd el-aziz Khairy Abd el-aal,Abdullah Al-Enezi,Qusaie E. Karam,2024-12-03 This book discusses the environmental hazards in the Gulf countries GCC The publication of this book is of great importance to all those interested and knowledgeable in the field Climate change leads to the occurrence of major environmental hazards that must be reduced by estimating the extent of climate change and developing appropriate solutions to mitigate those effects Climate changes are produced indirectly as a result of human activities with uncalculated consequences The process of climate change is always accompanied by catastrophic environmental problems such as global warming high temperatures storms hurricanes floods desertification processes air pollution and the extinction of many types and forms of animals and plants The Gulf countries are located in the eastern part of the Arabian Peninsula where the crude oil is extracted in several fields The states suffer from many environmental problems as a result of its geographical location global climate change and also from oil extraction operations The problems include high temperatures induced earthquakes

and pollution in the soil and marine coast as well as desertification processes sand dunes movement and other environmental problems Earthquakes are also recorded from and near the oil fields indicating the link between the oil extraction process and the occurrence of earthquakes Indeed the environmental studies published in the Gulf state are very few and do not meet the need of the scientific community in region which need more important environmental publications that help in the great and rapid urban developments in the area *Armor*,1980 The magazine of mobile warfare **The Nile** Hagai Erlikh,I. Gershoni,2000 Contributors consisting of historians and other scholars from Egypt Eritrea Ethiopia Europe Israel Sudan and the US trace the complex intercultural relations that have revolved around the Nile River throughout recorded history The volume s 20 articles focus on four themes peoples and identities in medieval times the Nile as seen from a distance such as from Europe and as a gateway for missionary activity mid century perspectives and contemporary views including the Aswan High Dam and revolutionary symbolism in Egypt Annotation copyrighted by Book News Inc Portland OR **Sleep Problems: Food Solutions** Diane Holloway Cheney,2017-06-15 Casting a wide net through history and sleep problems Dr Cheney examines and authoritatively demonstrates the siren song of sleep is not just an individuals problem but a societal problem This book is rich in surprising information about drowsy drivers putting children to sleep physicians in training pilots firefighters military police officers truck drivers shift workers and sleep inducing foods Songs poems fairy tales movies literature and recipe ideas from famous people make it more fascinating *Regional Cooperation, and the Role of International Organizations and Regional Integration* Maurice W. Schiff,L. Alan Winters,2002 **Sustainable Water Solutions in the Western Desert, Egypt: Dakhla Oasis** Erina Iwasaki,Abdelazim M. Negm,Salwa F. Elbeih,2021-03-08 This book is a multidisciplinary manuscript bringing together contributions on water issues from natural and social scientists focused on water management and structures in a challenging environmental situation such as Dakhla Oasis in Egypt s western desert The authors of this book are relevant scientists in hydrology geology remote sensing agriculture history and sociology It is devoted to various critical environmental topics such as geological and hydraulic structure climate influence underground water management irrigation management and human settlement The book provides a range of new perspectives on solving different environmental problems in arid zones toward the region s sustainable development based on the case studies and fieldwork in the Dakhla Oasis Western Desert Egypt *Processes, Mechanisms and Solutions in Coastal Wetland to Adapt to Changing Environment* Qing Wang, Dongdong Shao,Yu Zhang,Qin Zhu,2025-06-05 Coastal wetlands provide precious ecological services for us like coastal protection carbon storage flooding mitigation production and so on Mangrove saltmarsh sea grass oyster reef and coral reef are typical types of coastal wetland each type has its unique adaptive strategy to climate change through some processes and mechanisms Some of them are well known to us but most are unrecognized as they are far away from our living environment Furthermore in the context of climate change and anthropogenic influence the external disturbance is more complicated and changeable causing the responses of species and

the related processes more secluded and unpredictable Therefore the multilevel processes or mechanisms in coastal wetland to adapt to climate change as well as the solutions is urgent and important to face the new challenges Coastal wetlands lie in the transition zone between lands and seas defending us from storms and floodings and providing important and valuable ecosystem services such as carbon stock and biodiversity maintenance However coastal wetlands are vulnerable and are one of the most physically disturbed ecosystems on earth because they are always in hydrodynamic conditions under the interactions among tides waves runoffs and so on Furthermore the combined impacts of climate change and human activities have caused more uncertainties and complexities on the environmental factors which imposed unparalleled impacts on the diversity distribution and ecological performance of coastal wetland ecosystem globally

**Obligation in Exile** Ilan Zvi Baron, 2014-12-22 Combining political theory and sociological interviews spanning four countries Israel the USA Canada and the UK Ilan Zvi Baron explores the Jewish Diaspora Israel relationship and suggests that instead of looking at Diaspora Jews relationship with Israel as a matter of loyalty it is one of obligation Baron develops an outline for a theory of transnational political obligation and in the process provides an alternative way to understand and explore the Diaspora Israel relationship than one mired in partisan debates about whether or not being a good Jew means supporting Israel He concludes by arguing that critique of Israel is not just about Israeli policy but about what it means to be a Diaspora Jew
