**Cinematic Imaginaries of the African City** Danai S. Mupotsa, Polo B. Moji, Natasha Himmelman, 2023-08-30 This volume addresses questions at the intersections of cinematic form and the African city. It examines the contribution of cinema and audiovisual media to our understanding and experience of contemporary cities from an African perspective. Reading the African city as form, this volume problematizes the circulation of terms such as Afropolitanism, Afro-polis, Afro-modernity, and Afro-urbanity, which often define the kinds of sentiments invested in or associated with the African city. Situated within an interdisciplinary matrix that reads the urban African cinematic form through affect theory and the city as a matrix of feeling, critical black geography, and the racialized construction of city spaces, the urban as a temporal consciousness, and representations of social inequalities and urban geographies of exclusion, this edited volume frames the city and screenscapes as co-constitutive, foregrounding the diegetic and extra-diegetic elements that inform the African urban. Chapters engage thematic areas such as aesthetics and African cinematic urban form, visuality, and the infrastructures of the African city, audiovisual narratives, social inequality, and urban geographies of exclusion. *Cinematic Imaginaries of the African City* is a significant new contribution to African Studies and will be a great resource for academics, researchers, and advanced students of African Studies, Media and Cultural Studies, Visual Studies, and Sociology. The chapters included in this book were originally published as a special issue of *Social Dynamics: A Journal of African Studies*.
