**Checklist of Official North Carolina State Publications**, 1991 **The Family in America** Joseph M. Hawes, Elizabeth F. Shores, 2002-05-22 An incisive multidisciplinary look at the American family over the past 200 years written by respected scholars and researchers *Family in America* offers two powerful antidotes to popular misconceptions about American family life historical perspective and scientific objectivity When we look back at our early history we discover that the idealized 1950s family characterized by a rising birthrate a stable divorce rate and a declining age of marriage was a historical aberration out of line with long term historical trends Working mothers we learn are not a 20th century invention most families throughout American history have needed more than one breadwinner In the exciting new scholarship described here readers will learn precisely what is new in American family life and what is not and acquire the perspective they need to appreciate both the genuine improvements and the losses that come with change Shigella Surveillance Center for Disease Control, 1970 **Literacy, Information, and Development in Morocco during the 1990s** Samia Touati, 2012-06-15 *Literacy Information and Development in Morocco during the 1990s* offers readers a two level

investigation of the culture of literacy A handful of researchers approach literacy either through theory or through practice in general however this is the first study in the African context that tries to investigate the issue of literacy from both perspectives At the first level Touati provides an evaluation of the state policy towards literacy during the 1990s She places a particular emphasis on the motives and assumptions behind policy makers increasing interest in literacy Since 1990 the state has adopted a participatory approach which is based on a cross sector strategy that encourages both public and private institutions to take part in the dissemination of literacy This text explores the working factors that motivate Moroccan decision makers to support the campaign for greater literacy Such factors are founded on the assumption that providing literacy programs training and education are a means of furthering the country s development Moroccan officials also base their support for higher literacy rates on the belief that literacy is useful for both the individual and the society At the second level Touati offers an examination of the presumed benefits of literacy in Morocco Literacy has been found to engender many personal social and economic benefits but only when certain conditions are met These conditions include the political will to disseminate literacy the acknowledgement of the need for literacy in one s everyday life the availability of job opportunities and the eradication of poverty
