The Church John Berryman, 2010-10-23 As the third millennium gets into its stride this book charts a history of the western church tracing its evolution from its genesis at Caesarea Philippi to the consecration of women to the priesthood The development of the church as a fundamental characteristic and dynamic of western civilisation is traced through the identification of twenty defining moments in its fortunes both sacred and secular upon which the work of Christ has been sustained Each event is analysed within the context of the holy ongoing mission of the church and its long and short term significance explored It is an attempt to recognise its divine tenacity in the western world and beyond in the face of human weakness from without and from within *Countdown: A Handbook for Senior High School Students - Bahamas*
