**Buying Baroque** Edgar Peters Bowron, 2017-03-01 Although Americans have shown interest in Italian Baroque art since the eighteenth century Thomas Jefferson bought copies of works by Salvator Rosa and Guido Reni for his art gallery at Monticello and the seventeenth century Bolognese school was admired by painters Benjamin West and John Singleton Copley a widespread appetite for it only took hold in the early to mid twentieth century *Buying Baroque* tells this history through the personalities involved and the culture of collecting in the United States The distinguished contributors to this volume examine the dealers auction houses and commercial galleries that provided access to Baroque paintings as well as the collectors curators and museum directors who acquired and shaped American perceptions about these works including Charles Eliot Norton John W. Ringling A. Everett Austin Jr and Samuel H. Kress These essays explore aesthetic trends and influences to show why Americans developed an increasingly sophisticated taste for Baroque art between the late eighteenth century and the 1920s and they trace the fervent peak of interest during the 1950s and 1960s A wide ranging in depth look at the collecting of seventeenth and eighteenth century Italian paintings in America this volume sheds new light on the cultural conditions that led collectors to value Baroque art and the significant effects of their efforts on America's greatest museums and galleries In addition to the editor contributors include Andrea Bayer Virginia Brilliant Andria Derstine Marco Grassi Ian Kennedy J. Patrice Marandel Pablo Perez d'Ors Richard E. Spear and Eric M. Zafran

**Baroquemania** Laura Moure Cecchini, 2022-01-11 *Baroquemania* explores the intersections of art architecture and criticism to show how reimagining the Baroque helped craft a distinctively Italian approach to modern art Offering a bold reassessment of post-unification visual culture the book examines a wide variety of media and ideologically charged

discourses on the Baroque both inside and outside the academy Key episodes in the modern afterlife of the Baroque are addressed notably the Decadentist interpretation of Gianlorenzo Bernini the 1911 universal fairs in Turin and Rome Roberto Longhi's historically grounded view of Futurism architectural projects in Fascist Rome and the interwar reception of Adolfo Wildt and Lucio Fontana's sculpture Featuring a wealth of visual materials Baroque mania offers a fresh look at a central aspect of Italy's modern art     *Art and Architecture in Italy, 1600-1750* Rudolf Wittkower, Joseph Connors, Jennifer Montagu, 1999-01-01 This classic survey of Italian Baroque art and architecture focuses on the arts in every center between Venice and Sicily in the early high and late Baroque periods The heart of the study however lies in the architecture and sculpture of the exhilarating years of Roman High Baroque when Bernini Borromini and Cortona were all at work under a series of enlightened popes Wittkower's text is now accompanied by a critical introduction and substantial new bibliography This edition will also include color illustrations for the first time This is the second book in the three volume survey

1955 Reith Lectures in their original broadcast form as well as lectures that Pevsner gave in German for the BBC in London and RIAS in Berlin and on the radio in New Zealand These talks are important as an example of the attempt by the BBC in particular to provide intellectual programming for the mass population The talks are important for what they reveal about changing tastes in the treatment of the arts as a broadcast topic as well as offering a case study of the development of one particular historian's approach to a subject that was gaining ground in universities as a direct result of his popularisation of it They show what topics were thought to be central to the artistic agenda in the mid years of the last century whether from an academic or journalistic perspective and reveal the mode and manner of academic engagement with the public over the period Forty six of these talks were published in 2002 on the centenary of Pevsner's birth in a trade edition At the time his reputation as an active force in architectural thinking had long been eclipsed and interest in him had waned Since then there has been a turn around in tastes and Pevsner's role within his chosen field is now being actively studied and discussed by a new generation for whom he is central to an understanding of the 20th century There is therefore a real need for this book In addition to containing twice the number of talks as the previous volume it is supplemented with explanatory introductions footnotes and citations It also reveals as far as this is possible alternative versions of Pevsner's texts as they appeared at different stages in the original production process As such this edition can be relied on by academics as scholarly and
