Agard, 2011 Leadership in Non Profit Organizations tackles issues and leadership topics for those seeking to understand more about this dynamic sector of society A major focus of this two volume reference work is on the specific roles and skills required of the non profit leader in voluntary organizations Key features include contributions from a wide range of authors who reflect the variety vibrancy and creativity of the sector itself an overview of the history of non profit organizations in the United States description of a robust and diverse assortment of organizations and opportunities for leadership an exploration of the nature of leadership and its complexity as exemplified in the non profit sector availability both in print and online this title will form part of the 2010 Encyclopedia Collection on SAGE Reference Online The Handbook includes topics such as personalities of non profit leaders vision and starting a nonprofit organization nonprofit law statutes taxation and regulations strategic management financial management collaboration public relations for promoting a non profit organization human resource policies and procedures *Managing Nongovernmental Organizations* Frederik Claeyé, 2014-03-26 The idea that international development aid needs to be better managed and coordinated gained currency in the early 1990s The increasing emphasis on management has resulted in the present vogue of managing for development results as one of the central tenets in the discourse on international aid But how appropriate are these ideas tools and techniques for non governmental development organizations NGOs and how much does geographic context matter Examining the current debate on aid effectiveness and the role of NGOs in contributing to it this book highlights the critical importance of understanding how the global and the local interact to increase aid efficacy and develop more culturally astute ways of managing NGOs With a focus on NGOs active in sub Saharan Africa as case studies author Frederik Claey demonstrates that

NGOs are not mere passive recipients of management knowledge and practices emanating from the global governance structure of international aid but actively engage with these ideas and practices to translate and rework them through a local cultural lens. This process results in the emergence of unique hybrid management systems that combine the pressure to become more business like with the mission to satisfy the demands of the communities they serve

*Future of Civil Society* Annette Zimmer, Eckhard Priller, 2013-12-20 Few developments in the recent history of Central Europe have been more momentous than the emergence or more precisely the re emergence of civil society of organized citizen activity outside the boundaries of the state and the market. Indeed the re emergence of civil society was the key to all the other momentous developments that have characterized the extraordinary past two decades of Central European history the fall of the Berlin Wall the disintegration of the Soviet empire the re emergence of the market the appearance of democratic government and now the re integration of Europe. More than that the re emergence of civil society in Central Europe has revolutionized the position of civil society on the world stage more generally boosting its visibility enhancing its credibility and transforming its reputation from that of ineffectual supplicant to powerful instrument of social economic and political change. Despite its achievements however the Central European civil society sector remains at least in its Visegrad segments a fragile organism undercapitalized understaffed and still not fully integrated into the prevailing political and economic order. It is as if these countries have not yet decided how to reconcile their new civil society institutions with their recent history of extensive state provision of social welfare services not to mention their earlier rich histories of civil society organization and voluntary action. Indeed this earlier history has been largely lost from view

Riad El-Ghonemy,2003-07-03 An overview of the political economy and development of contemporary Egypt focusing on the nature and extent of economic reform and restructuring in the last twenty years Civil Society Sustainability Brian Pratt,Rachel Hayman,2018-04-19 This publication focuses on the challenges faced by civil society to remain sustainable in response to major changes in the global political economic and social environment Academics and practitioners from all over the world have contributed original articles practical notes and viewpoints which critically examine the ways in which civil society organisations are affected by and are responding to political and financial dynamics These include reductions in traditional external aid for civil society activities but also the growth of new forms of funding through social enterprise philanthropy fundraising and contractual relationships with national government The operating environment for civil society is a central theme with authors exploring the legitimacy and credibility of different types of civil society organisation as well as the effects of legislative and regulatory restrictions on their sustainability The contributions finally examine new opportunities for civil society and the prospects for organisations to emerge that are less dependent on foreign aid funding that are more embedded in local communities and that can bring about lasting and sustained social and economic change This book was originally published as a special issue of Development in Practice *Oblivion or Utopia* Chiku Malunga,2009-12-08 Oblivion or Utopia the Prospects for Africa explains that most of the problems on the continent stem from the fact that although the continent may be politically independent it is not economically independent Efforts to reverse the continent s continuing underdevelopment have failed to date including trillions of dollars in aid because they have not been consciously aimed at enabling Africa to turn its vast natural resources into wealth which is the only known way of ensuring economic independence Based on a comprehensive exploration of impediments to reach the goal of economic independence required for self definition the book proposes a five step strategy which can enable the continent to turn its natural resources into wealth by 1 Raising awareness and consciousness that Africa is not economically independent yet 2 Creating visions of aspiration 3 Organizing for wealth creation 4 Cultivating a business culture 5 Patronizing own businesses A revolutionary implementation of the five steps the author argues would make utopia triumph over oblivion on the continent of Africa *The Oxford Handbook of Civil Society* Michael Edwards,2013-07-04 Broadly speaking The Oxford Handbook of Civil Society views the topic of civil society through three prisms as a part of society voluntary associations as a kind of society marked out by certain social norms and as a space for citizen action and engagement the public square or sphere
