and education provided in this new work Many of these concepts have recently become widely known and accepted in spiritual circles However outside of an established spiritual tradition many experience the path to spiritual power and purpose to be truly labyrinthine The Mercury Formula reformulates the old mystery school wisdom into a concise practical manual that not only explains the spiritual truths but offers a clear and precise formula for intense and rapid personal discovery and transformation ideal for those feeling the urgent inner call to realize their purpose and create the change they want to see in the world www TheMercuryFormula com The Gnostic Path to Spiritual Reality, Roberta Vienneau, 2023-07-05 In a world where many are disillusioned with the highly drug dependent medical establishment integrative medicine is gaining popularity because of its more holistic approach Holism by definition implies greater than the sum of its parts and is a response to reductionism especially biological reductionism in medicine The holistic model widely accepted in integrative healthcare today is a biopsychosocial model that aims to treat the whole person It is a systems hierarchy model that includes the universe to a cell particle so one s understanding of holism will be reflected in what one considers relevant To a pulmonologist holism might mean the whole respiratory system to a geneticist holism might mean the whole family history but who is treating the whole person This groundbreaking book sheds light on the limitations of integrative healthcare in exploring the full potential of homeopathy in treating the whole person It argues that we don't need a new approach definition or understanding of holism We sometimes just need to step out of the systems hierarchy model of the reductionist paradigm itself to get a larger view and redefine the boundaries of what constitutes the wholeness of a person With a clear and engaging writing style the book takes readers on a journey through the history and evolution of the concept of whole and presents a compelling case for the adoption of an anthroposophic paradigm as a more comprehensive and effective approach to holism healing and homeopathy Whether you are a homeopath a healthcare practitioner a patient or simply interested in holistic medicine this is a must read book that will challenge your assumptions and expand your understanding of what it means to treat the whole person The Way of the Crucible Robert Bartlett, 2008-04 Our first book Real Alchemy provides a glimpse into the general theory and practices surrounding the Art of Alchemy as handed down in the Western World This second work delves more deeply into the why of the how behind laboratory alchemy and elaborates greater detail on some of the mineral works of Alchemy both ancient and modern Herein you will find a wealth of information concerning the practical art and science of alchemy that makes this arcane subject accessible to the modern student The Complete Book of Chinese Health and Healing Daniel Reid, 1994-12-05 Here is the first complete manual of Chinese medicine specifically written for the layperson Filled with illustrated exercises and recipes this book offers a unique integrated system of preventive health care so that now anyone can promote good health longevity and spiritual awareness using these traditional techniques Included are Key concepts of Chinese medical theory Dozens of illustrated T ai Chi and Chee gung exercises The Chinese approach to healing common ailments Authentic secrets of Taoist sexual yoga Therapeutic
