The Eclipse Of Community An Interpretation Of American Studies:

Stein, 1961 **The Eclipse of Community** Maurice R. Stein, 1965 **The Eclipse of Community; an Interpretation of American Studies, by Maurice R. Stein** Maurice Robert Stein, **Community Matters in Xinjiang, 1880-1949** Ildikó Bellér-Hann, 2008 Drawing on a wide range of historical sources presenting both emic and etic views this book offers an insight into aspects of social life among the Uyghur in pre socialist Xinjiang and substantiates the concept of tradition which modern Uyghurs draw upon to construct their ethnic identity *Community Development Abstracts* Sociological Abstracts, inc., New York, 1964 **Anti-Capital: Human, Social and Cultural** Jacek Tittenbrun, 2016-04-15 The notion of capital has enjoyed a rich career in the social sciences its use across a range of subjects and in diverse academic and professional contexts having served to establish its conceptual status as given With particular attention to human and social capital including cultural capital this book traces the roots of this theoretical and conceptual trend to economics revealing the proliferation of various forms of capital to be based upon an encroachment of the conceptual apparatus of economics into other social sciences Offering an in depth critical analysis of the concepts of human and social capital as well as their surrounding theories Anti Capital Human Social and Cultural proposes an alternative theoretical framework whilst better explaining the realities that they mask in economic terms A rigorous exploration of the most popular forms of capital in the contemporary social sciences this book will be of interest to scholars and students of sociology political and social theory demography and economics After the Disaster , *The Americanization of Social Science* David Haney, 2008-01-28 A highly readable introduction to and overview of the postwar social sciences in the United States The Americanization of Social Science explores a critical period in the evolution of American sociology s professional identity from the late 1940s through the early 1960s David Paul Haney contends that during this time leading sociologists encouraged a professional secession from public engagement in the name of establishing the discipline s scientific integrity According to Haney influential practitioners encouraged a willful withdrawal from public sociology by separating their professional work from public life He argues that this separation diminished sociologists capacity for conveying their findings to wider publics especially given their ambivalence towards the mass media

as witnessed by the professional estrangement that scholars like David Riesman and C Wright Mills experienced as their writing found receptive lay audiences He argues further that this sense of professional insularity has inhibited sociology's participation in the national discussion about social issues to the present day

Urban People and Places Daniel Joseph Monti, Michael Ian Borer, Lyn C. Macgregor, 2014-02-10 Providing a thorough and comprehensive survey of the contemporary urban world that is accessible to students *Urban People and Places The Sociology of Cities Suburbs and Towns* will give balanced treatment to both the process by which cities are built i e urbanization and the ways of life practiced by people that live and work in more urban places i e urbanism unlike most core texts in this area Whereas most texts focus on the socio economic causes of urbanization this text analyses the cultural component how the physical construction of places is in part a product of cultural beliefs ideas and practices and also how the culture of those who live work and play in various places is shaped structured and controlled by the built environment Inasmuch as the primary focus will be on the United States global discussion is composed with an eye toward showing how U S cities suburbs and towns are different and alike from their counterparts in Africa Asia and Central and South America

The Community in Rural America Kenneth P. Wilkinson, 2023-03-15 *The Community in Rural America* by Kenneth P Wilkinson is a foundational theoretical work that both defines the interactional approach to the study of the community in rural areas and frames its application to encourage and promote rural community development Recognized for its detailed theoretical construction and logic for understanding human interactions this book has been widely adopted and used by researchers extension faculty and community development practitioners for over thirty years Presenting Wilkinson's groundbreaking work in its original form with a new foreword aimed at clarifying several key concepts in interactional theory this edition of *The Community in Rural America* will appeal to new students of the community as well as established scholars in the field

Community Practice Skills Dorothy N. Gamble, Marie Weil, 2010 Dorothy N Gamble and Marie Weil differentiate among a range of intervention methods to provide a comprehensive and effective guide to working with communities Presenting eight distinct models grounded in current practice and targeted toward specific goals Gamble and Weil take an unusually inclusive step combining their own extensive experience with numerous case and practice examples from talented practitioners in international and domestic settings The authors open with a discussion of the theories for community work and the values of social justice and human rights concerns that have guided the work of activists from Jane Addams and Martin Luther King Jr to Cesar Chavez Wangari Maathai and Vandana Shiva They survey the concepts knowledge and perspectives influencing community practice and evaluation strategies Descriptions of eight practice models follow incorporating real life case examples from many parts of the world and demonstrating multiple applications for each model as well as the primary roles competencies and skills used by the practitioner Complexities and variations encourage readers to determine through comparative analysis which model at which time best fits the goals of a community group or organization given the context culture social economic and

environmental issues and opportunities for change An accompanying workbook stressing empowerment strategies and skills development is also available from Columbia University Press Connecting the Dots Peggy Wireman, 2017-09-08 Despite its size and social diversity the United States is one nation and what happens in one city or neighborhood ultimately affects all Americans Connecting the Dots addresses the complex relationships between family and community and between community and other players affecting family and community life including the private sector government nonprofit groups and religious organizations Contrary to much rhetoric Wireman argues that America does not suffer from a loss of family values but from a shift in business practices and public commitments The American dream of work hard buy a home and give your children a better life is no longer realistic for millions of workers both white collar and blue collar At an individual level millions of Americans face significant challenges as they go about trying to meet the everyday responsibilities of earning an income feeding their families maintaining their health finding housing handling everyday household chores and caring for their children Besides identifying top down structures laws and attitudes that create a supportive context for family life the book includes bottom up anecdotal examples to ground its policy oriented discussion It also provides statistical data needed to develop realistic solutions Wireman examines diversity as well since how America handles racial and ethnic differences remains crucial to its future She discusses ways in which communities have created social capital community cohesion and local organizational ability Wireman provides a framework for policymakers local community leaders and neighborhood activists to use in analyzing their situations and selecting the best approach she also describes what various players can and must do to uphold the American dream Connecting the Dots will be of keen interest to sociologists political scientists economists and social workers Spirits of Community K. D. M. Snell, 2016-06-16 Concern about the decline of community and the theme of community spirit are internationally widespread in the modern world The English past has featured many representations of declining community expressed by those who lamented its loss in quite different periods and in diverse genres This book analyses how community spirit and the passing of community have been described in the past whether for good or ill with an eye to modern issues such as the so called loneliness epidemic or the social consequences of alternative structures of community It does this through examination of authors such as Thomas Hardy James Wentworth Day Adrian Bell and H E Bates by appraising detective fiction writers analysing parish magazines considering the letter writing of the parish poor in the 18th and 19th centuries and through the depictions of realist landscape painters such as George Morland K D M Snell addresses modern social concerns showing how many current preoccupations had earlier precedents In presenting past representations of declining communities and the way these affected individuals of very different political persuasions the book draws out lessons and examples from the past about what community has meant hitherto setting into context modern predicaments and judgements about spirits of community today **Pluralism and Progressives** Rivka Shpak Lissak, 1989-11-09 The settlement house movement launched at the end of the nineteenth century by men and women

of the upper middle class began as an attempt to understand and improve the social conditions of the working class. It gradually came to focus on the new immigrants mainly Italians, Slavs, Greeks, and Jews who figured so prominently in this changing working class. Hull House, one of the first and best known settlement houses in the United States, was founded in September 1889 on Chicago's West Side by Jane Addams and Ellen G. Starr. In a major new study of this famous institution and its place in the movement, Rivka Shpak Lissak reassesses the impact of Hull House on the nationwide debate over the place of immigrants in American society. The Anthem Companion to Ferdinand Tönnies Christopher

Adair-Toteff, 2016-06-19 The Companion is a collection of articles covering noted German sociologist Ferdinand Tönnies' full range of thinking. Topics include Tönnies and the development of sociology, Tönnies on community, on globalization, on gender and the family, and on crime and law. They also include Tönnies' views on politics, on public opinion, as well as on Tönnies as a Hobbes scholar and his relation to Georg Simmel. Each of the essays is written in a clear manner and will be understandable to the non-specialist. Each essay is comprehensive and will be useful to the specialist. The Companion is a welcome and significant contribution to our understanding of this noted sociologist and political thinker. *Surrender and Catch* K.H. Wolff, 2012-12-06 Surrender and Catch give so you can receive where the giving is your whole self in a total experience. This is scarcely new on the American scene and it is ancient knowledge. East and West, the fears of total surrender, the fears of self-revelation, and of total abandon, although genuine, are likewise not new. Yet Kurt H. Wolff does attempt something new here: an epistemological essay with the help of this old idea, his subtitle is experience and inquiry today. He tries to formulate an integrated view which incorporates in the theory of total experience not only the accepted component: esthetics, religion, the recent American experience, but also a metaphysics, a phenomenology, a theory of perception, a social philosophy, and a methodology of the social sciences, even a philosophy of history and psychopathology. Phenomenology, especially Alfred Schütz, the critical Frankfurt school, especially Adorno and Marcuse, sociology, especially Georg Simmel, and existentialism, especially Camus, are tied in together. It all looks topsy-turvy at first. We have here scraps of a diary, fragments of correspondence, a stray adolescent love letter, notes on field work, and notes and comments on tutorial seminars, plus long excerpts from students' essays, a stray paper in a learned journal summarizing the core of the book, comments piled on comments, and a web of self-references, literary criticisms, and pieces of poetry, plus a rich scholarly apparatus. **Americans**

Against the City Steven Conn, 2014 It is a paradox of American life that we are a highly urbanized nation filled with people deeply ambivalent about urban life. In this provocative and sweeping book, historian Steven Conn explores the anti-urban impulse across the 20th century and examines how those ideas have shaped the places Americans have lived and worked, and how they have shaped the anti-government politics of the New Right. Urban Transportation Research and Planning, Current Literature, 1961 **Urban Sociology** C.G. Pickvance, 2013-04-15 This book applies the historical materialist or Marxist view of urban sociology and collates some fundamental sources of this perspective available. This book was first

published in 1976
