The Economics Of Soviet Bloc Trade And Finance:

The Economics Of Soviet Bloc Trade And Finance Franklyn D Holzman, 2019-06-26 Reflecting Professor Holzman's important work this book deals with major issues relating to both East West and intra bloc trade Professor Holzman explores the transition in Soviet bloc economies over the past fifteen years from balanced hard currency trade to large deficits with the West and the consequent development of a huge hard currency debt He compares the causes and treatments of deficits in planned economies with those in market economies and explores the dramatic differences in foreign trade behavior exhibited by Eastern and Western nations and the difficulties that arise when these conflicting systems interact in world markets He also assesses the impact of Western economic warfare on the Soviet Union and makes recommendations for future U S trade policy The author next turns to the issue of intra bloc trade In its early years the USSR economically exploited the smaller East European nations but many argue that the Soviet Union now subsidizes trade with its partners in the Council for Mutual Economic Assistance in exchange for political military and ideological support an argument that Professor Holzman strongly challenges He also contends that CMEA when viewed as a preferential trade group or customs union has been markedly unsuccessful On another level Professor Holzman assesses the causes and possible cures for the serious chronic problems related to currency inconvertibility rigid bilateralism and inability to use exchange rates as tools of economic adjustment In an international economy growing ever more interdependent the issues raised in these previously uncollected essays will continue to gain in importance as East and West meet in trade

Comecon J. J. Brine, 1992 Comecon or the Council for Mutual Economic Assistance was founded by Joseph Stalin in 1949 to counteract the Marshall Plan and reinforce the bonds between the Soviet Union and the people's democracies of Eastern Europe Other Soviet Bloc nations later joined Comecon and for forty years it dominated the trade policies of the Soviet Bloc and profoundly influenced their domestic economic development and relations with the West Comecon collapsed in 1991 after the countries of Eastern Europe rejected communism It was often compared with the West European Common Market but differed vastly in its aims structure powers and activities Its influence is a critical factor in assessing both the economic failures of the Soviet Bloc and the problems facing former member states as they make the transition to free market economies This detailed annotated bibliography is an essential guide to the extensive English language literature about Comecon from its founding until its demise Chapters cover Comecon's history structure and law socialist economic integration the organization's arrangements for international trade and finance environment natural resources and energy labor industry and agriculture science and technology Comecon like the rest of the Soviet Bloc collapsed suddenly but its legacy will color international relations and worldwide economic issues for years to come An understanding of its institutions mechanisms and policies remains vital in appreciating the economic organization of the former Soviet empire This bibliography will therefore be indispensable to policymakers economists historians and political scientists
