**The Eldorado Network** Derek Robinson, 1979      **Eldorado Network** Derek Robinson, 2012-03-01 1941 Hitler rampant Spain neutral Madrid like Casablanca the launching pad for spies from all sides The most daring and audacious is codenamed Eldorado Young inexperienced hotheaded he had no right to survive let alone succeed Now his network is the most valuable in Europe and the fates of armies lie in his hands But who does he work for Or is he only in it for himself One thing s for sure War may be a dirty business but it certainly brings home the bacon Based on a true story The Eldorado Network is the first novel in Derek Robinson s acclaimed Luis Cabrillo Quartet A tense and gripping espionage thriller from a master of action and suspense      **Artillery of Lies** Derek Robinson, 2013-11-05 1943 British Intelligence has finally got to grips with the Eldorado Network Germany s most successful spy ring It turns out to be one man in a small room in Lisbon inventing phony but convincing reports For two years he pulled the wool over German Intelligence s eyes and made a killing The British soon find that Eldorado s a real handful They bring him to England so they can manage his dispatches and discover that living with a genius can be a headache Eldorado rapidly creates a team of top sub agents around him None of them exists But power even imaginary power is intoxicating and he begins to treat his fake sub agents as if real Big trouble ahead Artillery of Lies is the hair raising sequel to The Eldorado Network all the more funny for being soundly based on the true story of a real Second World War spy      *Artificial Neural Networks in Hydrology* R.S. Govindaraju, A.R. Rao, 2013-03-09 R S GOVINDARAJU and ARAMACHANDRA RAO School of Civil Engineering Purdue University West Lafayette IN USA Background and Motivation The basic notion of artificial neural networks ANNs as we understand them today was perhaps first formalized by McCulloch and Pitts 1943 in their model of an artificial neuron Research in this field remained somewhat dormant in the early years perhaps because of the limited capabilities of this method and because there was no clear indication of its potential uses However interest in this area picked up momentum in a dramatic fashion with the works of Hopfield 1982 and Rumelhart et al 1986 Not only did these studies place artificial neural networks on a firmer mathematical footing but also opened the door to a host of potential applications for this computational tool Consequently neural network computing has progressed rapidly along all fronts theoretical development of different learning algorithms computing capabilities and applications to diverse areas from neurophysiology to the stock market Initial studies on artificial neural networks were prompted by a desire to have computers mimic human learning As a result the jargon associated with the technical literature on this subject is replete with expressions such as excitation and inhibition of neurons strength of synaptic connections learning rates training and network experience ANNs have also been referred to as neurocomputers by people who want to preserve this analogy      **Guardians of the High Frontier** United States. Derek Robinson, 2013-11-05 They joined an R A F known as the best flying club in the world but when war pitches the young pilots of 409 Squadron into battle over Germany their training tactics and equipment are soon found wanting their twin engined bombers obsolete from the off Chances of completing a 30 operation tour One in three At best Robinson s crooked salute to the dogged heroes of the R A F s early bombing campaign is a wickedly humorous portrait of men doing their duty in flying death traps fully aware in those dark days of war there was nothing else to do but dig in and hang on **Operation**
