The Honourable Jim Baroness Orczy, 2021-11-09 In *The Honourable Jim* Baroness Orczy crafts a captivating narrative that intertwines romance and adventure set against the backdrop of early 20th century England. The story unfolds through the eyes of Jim, a charming yet disillusioned gentleman who grapples with issues of identity, class, and ambition within a rapidly changing society. Orczy's adept use of dialogue and vivid imagery immerses readers in a world steeped in social critique, marked by her signature wit and keen observations of human nature. The novel is a reflection of the post-Victorian era, encapsulating themes of honor and moral dilemmas, as well as the complexities of friendship and societal expectations. Baroness Emmuska Orczy, a Hungarian-born British novelist, was a remarkable figure in the literary landscape, known predominantly for her creation of the Scarlet Pimpernel. Her experiences as a linguist and a member of the English aristocracy undoubtedly informed her portrayal of social hierarchies and character interactions in *The Honourable Jim*. As a woman writer in a male-dominated field, she brought a unique perspective that enables her to explore the subtleties of love and societal constraints. This book is highly recommended for readers interested in historical fiction that deftly blends romance and social commentary. Orczy's compelling characterization and insightful examination of human motivations make *The Honourable Jim* a richly rewarding read for those who appreciate the intricacies of early 20th-century literature.

Je T'Aime... Moi Non Plus Lucy Mazdon, Catherine Wheatley, 2010-11-01 A series of limiting definitions have tended to delineate the Franco-British cinematic relationship. As this collection of essays reveals, there is much more to it than simple oppositions between British critical esteem for the films of France and French dismissal of the cinema British or the success of Ken Loach et al. at the French box office and the relative dearth of French movies on British screens. In fact, there has long been a rich and productive dialogue between these two cultures in which both their clear differences and their shared concerns have played a vital role. This book provides an overview of the history of these relations from the early days of sound cinema to the present day. The chapters, written by leading experts in the history of French, British, and European cinema, provide insights into relations between French and British cinematic cultures at the level of production, exhibition, and distribution, reception, representation, and personnel. The book features a diverse range of studies, including the exhibition of French cinema in Britain in the 1930s, contemporary extreme French cinema stars such as Annabella David, Niven, and Jane Birkin, and the French Resistance on British screens.

The Necromancers Robert Hugh Benson, 1909 For he was perfectly aware that fear and a sickening kind of repulsion formed a very large element in his emotions. For nearly two hours, unless three persons had lied consummately, he, his essential being, that sleepless self that underlies all, had been in strange company. Company had become identified in some horrible manner with the soul of a dead person.
