*The Emperor of Eridanus* Pierre Barbet, 1983      **Out of This World** Rachel S. Cordasco, 2021-12-28 The twenty first century has witnessed an explosion of speculative fiction in translation SFT Rachel Cordasco examines speculative fiction published in English translation since 1960 ranging from Soviet era fiction to the Arabic language dystopias that emerged following the Iraq War Individual chapters on SFT from Korean Czech Finnish and eleven other source languages feature an introduction by an expert in the language s speculative fiction tradition and its present day output Cordasco then breaks down each chapter by subgenre including science fiction fantasy and horror to guide readers toward the kinds of works that most interest them Her discussion of available SFT stands alongside an analysis of how various subgenres emerged and developed in a given language She also examines the reasons a given subgenre has been translated into English An informative and one of a kind guide *Out of This World* offers readers and scholars alike a tour of speculative fiction s new globalized era      *Future and Fantastic Worlds* Sheldon Jaffery, 1987-01-01 *Future and Fantastic Worlds* embodies an unusual approach to the field of bibliographic research including over 700 annotations of every DAW book published through mid 1987 with indexes by author artist and title providing a massive guide to modern SF writers and their works with much background data Interspersed throughout the book are numerous wry irreverent and amusing observations offered by the late and highly respected researcher in this extremely valuable genre tool      *The British Cyclopaedia of the Arts, Sciences, History, Geography, Literature, Natural History, and Biography ...* , 1838      *The History of the Decline and Fall of the Roman Empire. Illustrated* Edward Gibbon, 2022-10-03 *The History of the Decline and Fall of the Roman Empire* traces Western civilization as well as the Islamic and Mongolian conquests from the height of the Roman Empire to the fall of Byzantium in the fifteenth century The six volumes cover the history from 98 to 1590 of the Roman Empire the history of early Christianity and then of the Roman State Church and the history of Europe and discusses the decline of the Roman Empire among other things Gibbon offers an explanation for the fall of the Roman Empire a task made difficult by a lack of comprehensive written sources though he was not the only historian to attempt it According to Gibbon the Roman Empire succumbed to barbarian invasions in large part due to the gradual loss of civic virtue among its citizens He began an ongoing controversy about the role of Christianity but he gave great weight to other causes of internal decline and to attacks from outside the Empire

**King Harold II and the Bayeux Tapestry** Gale R. Owen-Crocker, 2011 Harold II is chiefly remembered today perhaps unfairly for the brevity of his reign and his death at the Battle of Hastings The papers collected here seek to shed new light on the man and his milieu before and after that climax They explore the long career and the dynastic network behind Harold Godwinsson s accession on the death of King Edward the Confessor in January 1066 looking in particular at the important questions as to whether Harold s kingship was opportunist or long planned a usurpation or a legitimate succession in terms of his Anglo Scandinavian kinships They also examine the posthumous legends that Harold survived Hastings and lived on as

a religious recluse The essays in the second part of the volume focus on the Bayeux Tapestry bringing out the small details which would have resonated significantly for contemporary audiences both Norman and English to suggest how they judged Harold and the other players in the succession drama of 1066 Other aspects of the Tapestry are also covered the possible patron and locations the Tapestry was produced for where and how it was designed and the various sources artistic and real employed by the artist

Meyer,2023-05-09 This catalog is the first in depth investigation of comets that were reported since the 17th century but not confirmed and subsequently lost Volume I of this two volume work covers objects observed between 1600 and 1899 a period that was dominated by visual observations and was experiencing a rapid evolution in science The book uniquely combines the history and culture of comet hunting and discovery with modern tools of orbital mechanics to present a wholesome catalog of unconfirmed and suspected comets Each case includes a presentation of the observations a discussion about the observer

when possible consideration of the historic context and a conclusion as to the nature of the object In most cases the book presents material from original sources including some never before published that were acquired from observatories libraries and historical societies around the world Although some of these unconfirmed comets turned out to be misidentifications of planets or star clusters fabrications or poor observations of comets that were already being observed the Authors did identify many objects that were likely real comets In some cases the Authors were even able to derive orbits for the first time These observations may be valuable in the future as they could prove to be observations of periodic comets still to be discovered
