together in the processes of repatriation this book can help each side understand the other more fully And Another Thing Katherine Behar, Emmy Mikelson, 2016-06-18 In And Another Thing Nonanthropocentrism and Art Katherine Behar and Emmy Mikelson explore how artists engage with nonanthropocentrism one of the primary tenets shared by recent speculative realist and new materialist philosophies Extending their investigations in And Another Thing an exhibition which the authors curated in 2011 this volume documents both that exhibition and expands on two of its curatorial aims prioritizing art historical contexts for contemporary philosophy rather than the other way around and apprehending artworks as historically specific objects of philosophy The book is organized in three sections In the first section Behar and Mikelson provide long form essays that chart the evolution of nonanthropocentrism and art spanning eighteenth century architectural drawing performance minimalist sculpture and contemporary postminimalism These essays raise the stakes for art and speculative realism showing how artists have figured and prefigured nonanthropocentric ideas strikingly similar to those expounded in various new realist materialist and speculativist philosophies Literally occupying the center of the volume in section two the exhibition is represented by full color plates of eleven works by Carl Andre Laura Carton Valie Export Regina Jos Galindo Tom Kotik Mary Lucking Bruce Nauman Grit Ruhland Anthony Titus Ruslan Trusewych and Zimoun Artworks by these emerging and canonical figures lay bare the networks of alliances underlying the exhibition The book concludes with three short meditations on the relation between nonanthropocentrism and art and what that relation might portend for future thought These essays by Bill Brown Patricia Ticineto Clough and Robert Jackson are speculative in the sense that they perceive potentials for theory arising from nonanthropocentrism's manifestations in art Doing Conversation, Discourse and Document Analysis Tim Rapley, 2018-09-03 Introducing the theory and practice of conversation discourse and document analysis this book proves how useful these methods are in addressing key questions in the social sciences A true masterclass on practical issues such as generating an archive transcribing video material and analyzing discourses using a full range of documentary and verbal data It is the essential guide to exploring the rich rewards of working with text and talk **Federal Register**, 2013-08 Guiding Light Kevin George Hovey, 2019-04-18 Rev Dr Alan Tippett was arguably one of the leading missiologists of the twentieth century Through his prolific pen poignant observations and powerful insights he significantly influenced mission research and activity in the period of the 1960s to 1980s This was particularly facilitated through his research writing and teaching at the Institute of Church Growth Fuller Theological Seminary School of World Mission and his inaugural editorship of the American Society of Missiology's journal *Missiology An International Review* Yet for those who did not know Tippett's material well the very specific nature of his research and writing limited the influence of his insights For example without already knowing the pertinent content why would a missionary to Thailand think of reading Tippett's Solomon Islands Christianity However according to Doug Priest editor of a number of Tippett's posthumous publications this volume has done what even Tippett himself did not do and that is to capture the key features of his missiology in one volume

So Guiding Light functions as an in depth overview of The Essential Alan Tippet I can attest that the nature of Tippet s material continued to inform and inspire me throughout the eleven years of the research and writing of this study
