L'Eveillee,2003-11-26 As the main character lives an entire millennium he witnesses firsthand various milestones of forgotten generations such as the Crusades the Renaissance and the devastating World Wars in an emotionally charged way that no textbook could ever describe Savor the deepest hopes and fears of well known individuals of ages past Unveil the delicate humanity within history s heroes and villains who are not much different than us History is no longer a detached subject but an intimate force like a grandparent s weary heart and unconditional love with an inextinguishable promise of hope for the future As the pages unfurl you will learn things you may not even know about yourself Discover the simplest but most profound secrets of life Discover how your very existence was ultimately determined a thousand years ago and how you yourself have been carving the next millennium since the day you were born engraving your own name in the essence of time itself Ashes and Roses of a Millennium holds a legacy of love that will surely provoke a deep and intimate passion for history in the young and old alike      **SMITHSONIAN INSTITUTION BUREAU OF**

The Pattern of Evil Lawrence Leshan,2006 If we wish to learn from the Holocaust how to act against a recurrence we must ask what the SS thought they were doing as they organized and ran the horrific camps Then we can know how to watch for early signs of the emergence of this type of thinking and move against it This book addresses itself to this problem and arrives at new answers Modern science and philosophy have gradually become aware of the degree to which human beings use different sets of assumptions about the nature of reality how things are and work in different situations As this book demonstrates when the Mythic world picture is used to solve political problems instead of the appropriate Sensory world view the concentration camp becomes a possibility The process however is not inexorable but can be aborted if understood
