*Can't Not Do* Paul Shoemaker,2015-07-20 With so many social challenges facing our world trying to effect change feels daunting The problems are complex the politics murky and the players innumerable Yet every day there are regular heroes making a significant impact on our most intractable social issues Can t Not Do is a catchphrase for the urge that captures the heart of effective social change agents explaining in their own

words their passion and drive I can't not do this It's not that I can do this it's that I can't not I could not imagine not doing something about this issue The surprising truth from the trenches is we already have numerous proven solutions for our many social challenges what our world needs most and what most changes our children's future are more people prepared and committed to act on their social impulses for the long haul Innovation helps Money helps too But greater numbers of committed people help the most If you feel an internal persistent call to do more for the world Can't Not Do will help you to bridge the gap between wanting to do and doing to access the drive of an effective change agent to break through self-imposed barriers to learn key principles for success and to start seeing yourself acting as a change agent There is no secret sauce someone is born with and no special club needed to be successful at social change Rather successful change agents share some fundamental orientations to the world and to their committed cause and over time learn certain lessons that help them become more effective These lessons are reflected in Can't Not Do in seven seemingly simple questions that provide guideposts and unlock the reader's potential to make a difference for a social cause they care about This isn't a self-help book It's an inspiring narrative intertwined with a street readiness dialogue between the author and you between you and your inner aspirations These are authentic success stories vital questions and unconventional answers that can guide and inspire you to realize your greatest potential

Self Realization Espy M. Navarro, Robert Navarro, 2002-10-04 Telling the truth is done in a way that is supportive non-brutal enlightening and comfortable In general people don't tell the truth because of many reasons mostly because it is usually threatening to do so But if you don't get at the truth which means to see things the way that they really are then you can't possibly discover the truth Werner Erhard This book *Self Realization The Est and Forum Phenomena in American Society* presents a view of the content and context of est

the events that took place and a look at the distinct personality of Werner Erhard who added his personal touch to the field of consciousness raising. The est organization underwent great change from its beginnings and even now in its present form as the Forum series remains as a subject that is still open to a wide range of vast interpretations. It has been described as an organization that has tendencies of being a cult to one of an educational corporation that offers a profound and revealing experience. What is a fact is that the collective experiences of over 1 400 000 human beings who have gone through either the est training or the Forum series and each of their particular contributions that have resulted from these experiences have certainly had an impact on America and the world. Werner Erhard the founder of these courses is undoubtedly the most famous ex used car salesman in the United States. Without any formal credentials, degrees or advanced educational training, he used his innate intelligence, intuition and insight to promote self awareness in the United States. In the 1970s he was right for the times in synch with the fledgling me generation. By the time that he had retired the est training in 1984 and when he left the Forum in 1991 almost 750 000 people had undergone the courses that he had developed and marketed. Werner created the est training from three main sources: Mind Dynamics, Scientology and Zen. Even though these sources contributed greatly to est, a lot of credit must be given to Werner Erhard for putting the elements of the est training together in a unique fashion. He transformed the subject matter of life from mere words with his stated intent to alter the belief foundation that drives the lives of every human being on the planet. In the process he became a trailblazer, albeit subject to the arrows that every pioneer becomes a target of from detractors, pundits, experts and others who did not understand what was being presented. For a while Erhard was the poster child of the awareness movement that swept America during the 1970s. Eventually through some of his actions but mostly through the hostile environment of the media he succumbed to the slaughter of the relentless and vicious attacks on his character and persona. Nevertheless while it was vibrantly alive the est training provided one of the best and quickest opportunities available to radically alter one's life. Many competitors emerged but only est had the staying power for as long as it did and which still continues to this day under the Forum series. The importance of the est training and the Forum series especially in the United States is in the form of individual contributions that have transformed and enabled the people of this nation to enjoy a new level of spirituality, empowerment, perception and enhancement of their personal enlivenment and contribution.
