The End Of Strife Death Reconciliation And Expressions Of Christian Spirituality:

THE END OF STRIFE - DEATH, RECONCILIATION AND EXPRESSIONS OF CHRISTIAN SPIRITUALITY. D. M. Loades, 1984 Death and Purgatory in Middle English Didactic Poetry Takami Matsuda, 1997 The concept of Purgatory in Middle English didactic writings is explored through examination of visions of the afterlife sermons homiletic treatises and lyrics Christian Identity, Piety, and Politics in Early Modern England Robert E. Stillman, 2021-07-15 This book challenges the adequacy of identifying religious identity with confessional identity The Reformation complicated the issue of religious identity especially among Christians for whom confessional violence at home and religious wars on the continent had made the darkness of confessionalization visible Robert E Stillman explores the identity of Christians without names as well as their agency as cultural actors in order to recover their consequence for early modern religious political and poetic history Stillman argues that questions of religious identity have dominated historical and literary studies of the early modern period for over a decade But his aim is not to resolve the controversies about early modern religious identity by negotiating new definitions of English Protestants Catholics or moderate and radical Puritans Instead he provides an understanding of the culture that produced such a heterogeneous range of believers by attending to particular figures such as Antonio del Corro John Harington Henry Constable and Aemilia Lanyer who defined their pious identity by refusing to assume a partisan label for themselves All of the figures in this study attempted as Christians to situate themselves beyond between or against particular confessions for reasons that both foreground pious motivations and inspire critical scrutiny The desire to move beyond confessions enabled the birth of new political rhetorics promising inclusivity for the full range of England's Christians and gained special prominence in the pursuit of a still imaginary Great Britain Christian Identity Piety and Politics in Early Modern England is a book that early modern literary scholars need to read It will also interest students and scholars of history and religion **Modern Christianity and Cultural Aspirations** David Bebbington, Timothy Larsen, 2003-06-01 Christianity and cultural aspirations are inevitably in tension the combination invites a suspicion that temporal pursuits have slackened a quest for divine approbation Nevertheless as Christians generally believe that worldly success may be a position of influence worth seeking for noble reasons it is truly an area of tension rather than merely temptation This volume explores this lively juxtaposition in the context of modern Britain and America In fifteen original essays a range of well respected scholars examine the cultural aspirations of a broad spectrum of Christians including Baptists Congregationalists Methodists Presbyterians Roman Catholics and Anglicans as they were expressed in arenas as diverse as politics education architecture and sport **Catholic England**, 2013-01-01 The Reformation transformed English religion For many the spirituality of the preceding period remains largely unknown or overburdened with Protestant mythology of decadence These sources seek to explore the nature of religious belief and practice in pre Reformation England using original source material to make the debates accessible This consideration of the sources begins with an analytical chapter discussing the varieties of spirituality

in later medieval England and the ways in which they received expression through participation in church services actions like pilgrimages charitable foundations devotional readings and instruction Opposition to prevailing spirituality expressed through Lollardy is also considered The sources demonstrate with immediacy and potency these diverse expressions of faith and observance Many of the documents are translated for the first time from unpublished manuscript material This study demonstrates the vitality of the pre Reformation religious practices but also addresses the key methodological questions which arise from the sources about the nature of the material its reliability as historical evidence and the validity of external actions as testimony to intellectual and emotional experience
