*India and the South Asian Strategic Triangle* Ashok Kapur, 2010-12-14 This book traces the triangular strategic relationship of India Pakistan and China over the second half of the twentieth century and shows how two enmities Sino Indian and Indo Pakistani and one friendship Sino Pakistani defined the distribution of power and the patterns of relationships in a major centre of gravity of international conflict and international change The three powers are tied to each other and their actions reflect their view of strategic and cultural problems and geopolitics in a volatile area The book considers internal debates within the three countries zones of conflict including northeast and northwest south Asia the Himalayas and the Indian Ocean and the impact of developments in nuclear weapons and missile technology It examines the destructive consequences of China's harsh methods in Tibet of China's encouragement of military rather than democratic regimes in Pakistan and of China's delay in dealing with the border disputes with India Ashok Kapur shows how the Nehru Chou rhetoric about peaceful co existence affected the relationship and how the dynamics of the relationship have changed significantly in recent years as a range of new factors including India's increasing closeness to the United States have moved the relationship into a new phase **Xinjiang** S. Tow, 1984-06-18 Revolution and War Stephen M. Walt, 2013-08-07 Revolution within a state almost invariably leads to intense security competition between states and often to war In Revolution and War

Stephen M Walt explains why this is so and suggests how the risk of conflicts brought on by domestic upheaval might be reduced in the future In doing so he explores one of the basic questions of international relations What are the connections between domestic politics and foreign policy Walt begins by exposing the flaws in existing theories about the relationship between revolution and war Drawing on the theoretical literature about revolution and the realist perspective on international politics he argues that revolutions cause wars by altering the balance of threats between a revolutionary state and its rivals Each state sees the other as both a looming danger and a vulnerable adversary making war seem both necessary and attractive Walt traces the dynamics of this argument through detailed studies of the French Russian and Iranian revolutions and through briefer treatment of the American Mexican Turkish and Chinese cases He also considers the experience of the Soviet Union whose revolutionary transformation led to conflict within the former Soviet empire but not with the outside world An important refinement of realist approaches to international politics this book unites the study of revolution with scholarship on the causes of war

### **The Politics and Strategy of Nuclear Weapons in the Middle East**

Shlomo Aronson,2012-02-01 Based on research from an array of American Arab British French German and Israeli sources this book provides a nuclear history of the world s most explosive region Most significantly it gives an exposition of Israel s acquisition and political use or nonuse of nuclear weapons as a central factor of its foreign policy in the 1960 1991 period In stressing the factor of nuclear weapons the author highlights an often neglected aspect of Israeli security policy This is the first interpretation of the historical development of nuclear doctrine in the Middle East that assesses the strategic implications of opacity Israel s use of suggestion rather than open acknowledgment that it possesses nuclear weapons Aronson discusses the strategic thinking of Israel the Arab countries the U S the former Soviet Union and other countries and connects Israeli strategies for war peace territories and the political economy with the use of nuclear deterrence The author approaches the development of Israeli doctrines on nuclear weapons and defense in general within a large matrix that includes the United States Israeli perceptions of Arab history culture and psychology and Israeli perceptions of Israel s own history culture and psychology He also deals with Arab perceptions of Israel s nuclear program and with Arab and Iranian incentives to go nuclear In addition he discusses at length the importance of nuclear factors in the conduct of the Persian Gulf War and examines the implications of the decline of the former Soviet Union for arms control and peace in the Middle East

share similar experiences and have been known to cooperate for shared goals. *Perspectives On Kashmir* Raju Gc Thomas, 2019-05-28 This work examines the long standing conflict between India and Pakistan over Kashmir exploring the issues from the perspectives of all the actors involved. The contributors reevaluate the Kashmir problem in the context of the revival of the dispute in 1990 and as an outgrowth of the politics of integration and separatism in South Asia since the p

*Dynamics of Regional Politics* William Howard Wriggins, 1992 *Dynamics of Regional Politics* explores the patterns of international conflict and cooperation in four geographical subsystems: the Horn of Africa, the Persian Arabian Gulf, the South Asian subcontinent and Southeast Asia. Wriggins's book argues that to understand how the end of the Cold War will affect these areas it is necessary to look closely at their individual dynamics over time to differentiate characteristics that are intrinsic to the regions from those caused by the Cold War involvement of the United States and the Soviet Union.

*Roads and Rivals* Mahnaz Ispahani, 2019-05-15 Over the past two centuries the borderlands of Central South and West Asia have been transformed from the remote peripheries into areas of intense regional and international interest. In *Roads and Rivals* Mahnaz Ispahani explores the crucial but unacknowledged role that land routes have played in the strategic, political and economic evolution of those borderlands.

**Strategic Calling** James Allen Smith, 1993

**Beijing's Power and China's Borders** Bruce Elleman, Stephen Kotkin, Clive Schofield, 2015-05-18 China shares borders with 20 other countries. Each of these neighbors has its own national interests and in some cases these include territorial and maritime jurisdictional claims in places that China also claims. Most of these 20 countries have had a history of border conflicts with China; some of them never amicably settled. This book brings together some of the foremost historians, geographers, political scientists and legal scholars on modern Asia to examine each of China's twenty land or sea borders.

*The Cold War on the Periphery* Robert J. McMahon, 1996-06-13 Focusing on the two tumultuous decades framed by Indian independence in 1947 and the Indo-Pakistani war of 1965, *The Cold War on the Periphery* explores the evolution of American policy toward the subcontinent. McMahon analyzes the motivations behind America's pursuit of Pakistan and India as strategic Cold War prizes. He also examines the profound consequences for U.S. regional and global foreign policy and for South Asian stability of America's complex political, military and economic commitments on the subcontinent. McMahon argues that the Pakistani-American alliance consummated in 1954 was a monumental strategic blunder. Secured primarily to bolster the defense perimeter in the Middle East, the alliance increased Indo-Pakistani hostility, undermined regional stability and led India to seek closer ties with the Soviet Union. Through his examination of the volatile region across four presidencies, McMahon reveals the American strategic vision to have been surprisingly ill defined, inconsistent and even contradictory because of its exaggerated anxiety about the Soviet threat and America's failure to incorporate the interests and concerns of developing nations into foreign

policy The Cold War on the Periphery addresses fundamental questions about the global reach of postwar American foreign policy Why McMahon asks did areas possessing few of the essential prerequisites of economic military power become objects of intense concern for the United States How did the national security interests of the United States become so expansive that they extended far beyond the industrial core nations of Western Europe and East Asia to embrace nations on the Third World periphery And what combination of economic political and ideological variables best explain the motives that led the United States to seek friends and allies in virtually every corner of the planet McMahon s lucid analysis of Indo Pakistani American relations powerfully reveals how U S policy was driven as he puts it by a series of amorphous and largely illusory military strategic and psychological fears about American vulnerability that not only wasted American resources but also plunged South Asia into the vortex of the Cold War

**Asymmetric Conflicts** T. V. Paul, 1994-03-10 This book examines a question generally neglected in the study of international relations why does a militarily and economically less powerful state initiate conflict against a relatively strong state T V Paul analyses this phenomenon by focusing on the strategic and political considerations domestic and international which influence a weaker state to initiate war against a more powerful adversary The key argument of deterrence theory is that the military superiority of the status quo power coupled with a credible retaliatory threat will prevent attack by challengers The author challenges this assumption by examining six twentieth century asymmetric wars from the Japanese offensive against Russia in 1904 to the Argentine invasion of the Falkland Islands in 1982 The book s findings have wide implications for the study of war power deterrence coercive diplomacy strategy arms races and alliances

Pokhran and Beyond Ashok Kapur, 2003 This book examines India s nuclear position in the context of its domestic politics exploring how the position challenges India s interests and values within the regional and international environment It points to the militarization of Indian nuclear and space science arguing that external pressures stimulated Indian nationalism and led to a dramatic change in Indian political and social thought about strategic affairs Kapur asserts that the new Indian approach is to specify Indian strategic priorities and agenda demonstrate political will by military and political action bear and inflict costs on rivals and engage the world through power politics rather than disarmament talks
