LL.D. Poet Laureate, Honorary Member of the Royal Spanish Academy, ... in Three Volumes. Vol. 1. [-3.]**, 1827 The Routledge Companion to Korean Literature Heekyoung Cho, 2022-03-15
The Routledge Companion to Korean Literature consists of 35 chapters written by leaders in the field who explore significant topics and who have pioneered innovative approaches. The collection highlights the most dynamic current scholarship on Korean literature, presenting rigorous literary analysis, interdisciplinary methodologies, and transregional thinking so as to provide a valuable and inspiring resource for researchers and students alike. This Companion has particular significance as the most extensive collection to date of English language articles on Korean literature; it both offers a thorough intellectual engagement with current scholarship and addresses a broad range of topics and time periods from premodern to contemporary. It will contribute to an understanding of literature as part of a broad sociocultural process that aims to put the field into conversation with other fields of study in the humanities and social sciences. While presenting rigorous and innovative academic research that will be useful to graduate students and researchers, the chapters in the collection are written to be accessible to the average upper-level undergraduate student and include only minimal use of academic jargon. In an effort to provide substantially helpful material for researching teaching and learning Korean literature, this Companion includes as an appendix an extensive list of English translations of Korean literature. *Louisiana Poets* Catharine Savage Brosman, Olivia McNeely Pass, 2019-04-10

The Poetry of the Medieval Troubadour, William IX of Aquitaine Fidel Fajardo-Acosta, 2023-08-15 The Poetry of the Medieval Troubadour William IX of Aquitaine The Songs that Built Europe offers a new edition translation and critical discussion of the songs of the first European troubadour William IX Duke of Aquitaine This book argues that William and his poetic works manifest the economic political and cultural forces that laid the foundations of modern Europe including the subjectivities of modern westerners and the concerns and motifs of what later became the national literatures of France Spain England Germany and Italy Encouraging personal freedoms self definition and the pursuit of love and happiness the culture of courtly love that William initiated is distinctly modern but can also be seen to have played a key role in the subjection of medieval Europeans to the then emergent market economy imperialist ambitions of the Church and authority of proto national kingdoms As such subjection affected even the highest ranking aristocrats such as William the road of liberation of desire appears to have been a fast lane to serfdom for everyone perhaps the most pre modern feature of the modern and postmodern conditions
