John T. Guthrie

The Engaging Reader By:

Engaging Young Readers Linda Baker, Mariam Jean Dreher, John T. Guthrie, 2000-03-07 This volume demonstrates how promoting children's engagement with reading can greatly enhance reading achievement. From leading literacy researchers and educators, the book illuminates what a child needs to become an engaged reader and presents a set of instructional principles designed to facilitate this goal. Helping teachers offer a coordinated emphasis on competence and motivation in reading instruction, chapters blend research evidence with practical recommendations. Topics covered include ways to provide children with a good foundation at the word level, help if they are in trouble, ample time and materials for reading opportunities to share in a community of learners, instruction that is coherent, motivating, and responsive to each child's strengths and weaknesses, school-wide coordination of instruction, and continuities between home and school.

Engaging Readers Dana A. Robertson, Evelyn Ford-Connors, Susan Dougherty, 2017-03-17 An important goal of teachers is to get all students, especially those in the upper elementary and middle grades who struggle with academic work, engaged in reading. This book examines current research on instructional principles and actions related to engaged reading. It shows how teachers can translate this research into evidence-based actions that promote productive instructional contexts and focus students' purposeful use of literacy in acquiring knowledge. The authors integrate descriptions of principles and actions with concrete examples of classroom instruction and thematic teaching across disciplinary contexts and demonstrate how teachers might mediate students' reading of complex texts. The book provides readers with a vivid picture of the complexities of teaching reading in the upper elementary and middle grades. In particular, the book blends individual principles and practices into a holistic approach to creating productive and engaged learning environments for all upper elementary and middle grade learners.

Reading, Writing, and Rhythm: Engaging Content-Area Literacy Strategies Rosalie Fink, 2015-07-01 Rhythm, rhyme, and rap are powerful hooks that spark students' interests and engage them in learning. This innovative resource provides effective strategies for incorporating rhyme and rhythm-based activities and lessons into Language Arts, Social Studies, Science, and Math instruction. Through the use of music, singing, student and teacher-created raps, Reader's Theater, Freeze Frames, and historical songs, students will develop their literacy skills, master content-specific knowledge, and be more likely to retain information while meeting standards goals.

Building Communities of Engaged Readers Teresa Cremin, Marilyn Mottram, Fiona M. Collins, Sacha Powell, Kimberly Safford, 2014-06-20 Reading for pleasure urgently requires a higher profile to raise attainment and increase children's engagement as self-motivated and socially interactive readers. Building Communities of Engaged Readers highlights the concept of Reading Teachers who are not only knowledgeable about texts for children but are aware of their own reading identities and prepared to share their enthusiasm and understanding of what being a reader means. Sharing the processes of reading with young readers is an innovative approach to developing new generations of readers. Examining the interplay between the will and the skill to read, the book

distinctively details a reading for pleasure pedagogy and demonstrates that reader engagement is strongly influenced by relationships between children teachers families and communities Importantly it provides compelling evidence that reciprocal reading communities in school encompass a shared concept of what it means to be a reader in the 21st century considerable teacher and child knowledge of children s literature and other texts pedagogic practices which acknowledge and develop diverse reader identities spontaneous inside text talk on the part of all members a shift in the focus of control and new social spaces that encourage choice and children s rights as readers Written by experts in the literacy field and illustrated throughout with examples from the project schools it is essential reading for all those concerned with improving young people s enjoyment of and attainment in reading
