Investigations**

Sino American Normalization And Its Policy Implications:

Sino-American Normalization and Its Policy Implications Gene T. Hsiao, Michael Witunski, 1983 Analyzing the relations between the People's Republic of China and the United States from 1974 to the official normalization of ties between the countries on December 15, 1978 leading experts in East Asian affairs provide a comprehensive view of the likely consequences of the normalization process Among topics discussed are the implications of normalization for the strategic interests of China the United States Japan and the Soviet Union in East Asia the future of Taiwan the expansion of bilateral trade with and investment in China and the transfer of technology to China Includes the major official agreements between the two countries between 1972 and the present ISBN 0 03 058023 4 pbk 15 95 **Breaking the Ice** Tony Armstrong, 1993 Taking an in depth look at cases of the two Germanys the United States and China and Israel and Egypt Armstrong examines why initiatives by Brandt Nixon Carter and Mao and Sadat and Begin succeeded where previous attempts at rapprochement had failed The book looks first at the available theory and then at rapprochement in practice Were there the author asks similarities between the three cases in terms of the prevailing international circumstances the strategies and tactics adopted in the pursuit of improved relations and the formal negotiations that ushered in the new relationships Armstrong concludes that some underlying principles did indeed govern the shift from mutual antagonism to mutual acceptance principles that may apply equally in today's post Cold War world **Problems of Communism**, 1984 Sino-American Détente and Its Policy Implications Gene T. Hsiao, 1975 **Interpreting U.S.-China-Taiwan Relations** Xiabing Li, Xiabo Hu, Yang Zhong, 2003-02-27 Interpreting U S China Taiwan Relations presents an up to date multidisciplinary approach to this often troublesome relationship through essays written by experts in the fields of political science economics military science history and communications It begins with a focus on the relationship between the U S and China as China presses forward with new development while the United States encourages a balance of power in East Asia It evaluates the successes and failures of the relationship and the forces behind the stands that they take that feed the stress of the relationship The second group of essays deals with the relationship between China and Taiwan They examine the recent changes and tentativeness surrounding the situation caused by the death of Deng Xiaoping and the social and economic problems of China yet communicate a tremendous optimism that a breakthrough will occur in the future The final essays explore the evolution of China's perceptions of its international environment as it begins to understand and respond to external circumstances better and more positively **The Golden Age of the U.S.-China-Japan Triangle, 1972-1989** Ezra F. Vogel, Ming Yuan, Akihiko Tanaka, 2020-03-23 A collaborative effort by scholars from the United States China and Japan this volume focuses on the period 1972-1989 during which all three countries brought together by a shared geopolitical strategy established mutual relations with one another despite differences in their histories values and perceptions of their own national interest Although each initially conceived of its political and security relations with the others in bilateral terms the three in fact came

to form an economic and political triangle during the 1970s and 1980s But this triangle is a strange one whose dynamics are constantly changing Its corners the three countries and its sides the three bilateral relationships are unequal while its overall nature the capacity of the three to work together has varied considerably as the economic and strategic positions of the three have changed and post Cold War tensions and uncertainties have emerged [U.s. Foreign Policy And Asian-pacific Security](#) William T Tow,2019-06-04 The Reagan administration has indicated clearly that the United States will reassert its strategic presence in Asia and the Pacific at levels not equalled since the close of the Vietnam conflict The implications of this policy bear careful examination in light of the growing divergence between U S security perceptions and those of our European an

Pacific Power Paradox Van Jackson,2023-01-10 A new history of Asian peace since 1979 that considers America s paradoxical role After more than a century of recurring conflict the countries of the Asia Pacific region have managed something remarkable avoiding war among nations Since 1979 Asia has endured threats near miss crises and nuclear proliferation but no interstate war How fragile is this Asian peace and what is America s role in it Van Jackson argues that because Washington takes for granted that the United States is a force for good successive presidencies have failed to see how their statecraft impedes more durable forms of security and inadvertently embrittles peace At times the United States has been the region s bulwark against instability but America has been a threat to Asian peace as much as it has been its guarantor By grappling with how America fits into the Asian story Jackson shows how regional stability has diminished because of U S choices and why America s margin for geopolitical error is less now than ever before [The Cambridge Handbook of Contemporary China](#) Colin Mackerras,Amanda Yorke,1991-05-02 The paradox of contemporary China its openness to Western technology yet its rejection of Western democratic ideals serves to make China appear remote and inaccessible to those outside The country s vast area and population only accentuate these difficulties The Cambridge Handbook of Contemporary China presents topical information on all aspects of Chinese life since 1949 with particular emphasis on the 1980s its major strength is its contemporary focus and easy to use format Useful maps and tabled statistics accompany the text which is divided into clearly defined categories Designed for students specialists educationalists journalists and those in business and government as well as the general reader the Handbook provides easy access to information on all areas of Chinese life and is a good starting point for research **The Cambridge History of China: Volume 15, The People's Republic, Part 2, Revolutions Within the Chinese Revolution, 1966-1982** Roderick MacFarquhar,John K. Fairbank,Denis Crispin Twitchett,1991-11-29 In continuing the post revolution study started in Volume 14 Volume 15 considers the developments in Mao s thoughts and how they related to China s government The most comprehensive account of this turbulent period in Chinese history **A Unique Relationship: The United States and the Republic of China under the Taiwan Relations Act** Ramon Hawley Myers,1989 **The Cambridge History of China** Roderick MacFarquhar,John King Fairbank,1987 **The U.S. Role in a Changing World Political Economy** ,1979

Going to Tehran Flynt Leverett, Hillary Mann Leverett, 2013-01-08 An eye opening argument for a new approach to Iran from two of America's most informed and influential Middle East experts. Balanced, sober, impressively documented and rich in insight, a valuable antidote to the warmongering that passes for analysis of Iran and US-Iranian relations. Andrew J. Bacevich, author of *Breach of Trust*. Less than a decade after Washington endorsed a fraudulent case for invading Iraq, similarly misinformed and politically motivated claims are pushing America toward war with Iran. Today the stakes are even higher: such a war could break the back of America's strained superpower status. Challenging the daily clamor of US saber rattling, Flynt and Hillary Mann Leverett argue that America should renounce thirty years of failed strategy and engage with Iran just as Nixon revolutionized US foreign policy by going to Beijing and realigning relations with China. Former analysts in both the Bush and Clinton administrations, the Leveretts offer a uniquely informed account of Iran as it actually is today, not as many have caricatured it or wished it to be. They show that Iran's political order is not on the verge of collapse; that most Iranians still support the Islamic Republic; and that Iran's regional influence makes it critical to progress in the Middle East. Drawing on years of research and access to high-level officials, *Going to Tehran* explains how Iran sees the world and why its approach to foreign policy is hardly the irrational behavior of a rogue nation. A bold call for new thinking, the Leveretts' indispensable work makes it clear that America must go to Tehran if it is to avert strategic catastrophe. There is a whole slew of highly dubious assumptions and narratives about Iran that are rarely challenged in any meaningful way in media circles. *Going to Tehran* is vital to thinking critically about these claims. Because of their expertise and their long immersion in these issues, the Leveretts and this book deserve a prominent voice in any serious debate about Iran. Glenn Greenwald, *The Guardian*. Read this book. You'll find a lot of information that's not generally available and valuable insights that are sharply at odds with conventional views in the United States. This book may help if it's widely enough understood to halt a very clear drift toward what could be a terrible war. Noam Chomsky

Pivotal Deterrence Timothy W. Crawford, 2003 Crawford explains the political dynamics of pivotal deterrence and the conditions under which it is likely to succeed while examining some of its most impressive feats and failures. German Chancellor Otto von Bismarck's agile approach to the 1870s Eastern Crisis, which prevented war between Russia and Austria-Hungary, is contrasted with Britain's ambiguous and ill-fated maneuvers to deter Germany and France in July 1914. Shifting to the 1960s Cold War, Crawford explores the successes and setbacks in US efforts to prevent NATO allies Greece and Turkey from fighting over Cyprus and to defuse the Kashmir conflict between India and Pakistan. BOOK JACKET

United States-China Relations United States. Congress. House. Committee on International Relations. Special Subcommittee on Investigations, 1976

China Diplomacy John F. Copper, 2019-03-07 This book examines the process that created the Taiwan Relations Act (TRA). It endeavors to assess the TRA in terms of its role in guiding or determining US-China policy in preserving the sovereignty of Taiwan, in promoting democracy there, and in resolving the Taiwan issue.

Book of Days C. Edward Wall, 1987

At Cross Purposes Richard C. Bush, 2015-02-12 Written by the

former chairman and managing director of the American Institute in Taiwan this book sheds new light on key topics in the history of U S Taiwan relations It fills an important gap in our understanding of how the U S government addressed Taiwan and the Taiwan Strait issue from the early 1940s to the present One theme that runs through these essays is the series of obstacles erected that denied the people of Taiwan a say in shaping their own destiny Franklin Roosevelt chose to return Taiwan to mainland China for geopolitical reasons there was little pressure on the Kuomintang to reform its authoritarian rule until Congress got involved in the early 1980s Chiang Kai shek spurned American efforts in the 1960s to keep Taiwan in international organizations and behind the ROC s back the Nixon Carter and Reagan administrations negotiated agreements with the PRC that undermined Taiwan s position In addition to discussing how the United States reacted to key human rights cases from the 1940s to the 1980s the author also discusses the Bush and Clinton administrations efforts to preserve U S interests while accommodating new forces in the region All these episodes have an enduring relevance for the people of Taiwan and in his conclusion the author discusses where the relationship stands today The book includes related documents that helped shape the U S Taiwan relationship The End of an Isolation: China After Mao Harish Kapur,2024-10-28
