Hershock,2023-12-14

Consciousness Mattering presents a contemporary Buddhist theory in which brains bodies environments and cultures are relational infrastructures for human consciousness Drawing on insights from meditation neuroscience physics and evolutionary theory it demonstrates that human consciousness is not something that occurs only in our heads and consists in the creative elaboration of relations among sensed and sensing presences and more fundamentally between matter and what matters Hershock argues that without consciousness there would only be either unordered sameness or nothing at all Evolution is consciousness mattering Shedding new light on the co emergence of subjective awareness and culture the possibility of machine consciousness the risks of algorithmic consciousness hacking and the potentials of intentionally altered states of consciousness Hershock invites us to consider how freely wisely and compassionately consciousness matters *The Ethnomusicologists' Cookbook* Sean Williams,2013-10-31 Named one of New York Times Top 20 Cookbooks of 2006 Have you ever wanted to host a full evening of Indian food culture and music How about preparing a traditional Balinese banquet Or take a trip to Cairo and
