**Existential Theology** Hue Woodson, 2020-09-29 Existential Theology An Introduction offers a formalized and comprehensive examination of the field of existential theology in order to distinguish it as a unique field of study and view it as a measured synthesis of the concerns of Christian existentialism Christian humanism and Christian philosophy with the preoccupations of proper existentialism and a series of unfolding themes from Augustine to Kierkegaard To do this Existential Theology attends to the field through the exploration of genres the European traditions in French Russian and German schools of thought counter traditions in liberation feminist and womanist approaches and postmodern traditions located in anthropological political and ethical approaches While the cultural contexts inform how each of the selected philosopher theologians present genres of existential theology other unique genres are examined in theoretical and philosophical contexts particularly through a selected set of theologians philosophers thinkers and theorists that are not generally categorized theologically By assessing existential theology through how it manifests itself in genres this book brings together lesser known figures well known thinkers and figures that are not generally viewed as existential theologians to form a focused understanding of the question of the meaning of existential theology and what existential theology looks like in its varying forms

*The Two Horizons* Anthony C. Thiselton, 1980

*Muriel Spark, Existentialism and The Art of Death* Cairns Craig, 2019-02-20 Proposes that Christian existentialism and in particular the work of Søren Kierkegaard helped shape Spark's religious commitments and her artistic innovations Because of the prominence after the Second World War of the atheistic existentialism of Jean Paul Sartre it is often forgotten that existentialism was originally a Christian philosophy shaped by followers of Kierkegaard such as Karl Jaspers and Gabriel Marcel The author traces in Spark's writings both the influence of Kierkegaard and of Spark's resistance to Sartre's co-option of existentialism to an atheistic agenda Kierkegaard's analysis of the nature of the aesthetic as a false mode of existence that has to be transcended by the ethical and then by the religious provides a fundamental structure for Spark's satirical analyses of the failings of the modern world

**Heidegger** Thomas Sheehan, 2017-07-12 Many people consider Martin Heidegger the most important German philosopher of the twentieth century He is indisputably controversial and influential Although much has been written about Heidegger this may be the best single volume covering his life career and thought For all its breadth and complexity Heidegger's perspective is quite simple he is concerned with the meaning of Being as disclosure Heidegger's life was almost as simple He was a German professor except for a brief but significant period in which he supported the Nazi regime While that departure from philosophy continues to haunt his name and work one must question whether his thought from 1912 to 1976 should be measured by the yardstick of his politics from May 1933 through February 1934 This anthology addresses his complex but simple thought and his simple but complex life In a real sense Sheehan claims there is no content to Heidegger's topic and legacy only a method But method must not be taken to mean a technique or procedure for philosophical thinking Rather the topic of Heidegger's thought and his pursuit of that topic the what and the how are one and the same thing Heidegger writes *Alles ist Weg* Everything is way and man's Being is to be on the way in essential movement Heidegger argues in our essence we humans are the topic and the point is not to be led there so much as to come to know what we already know and to become what we already are This brilliant collection confirms this truism and is an excellent introduction to the work of this seminal thinker

**Selected Letters** Nicholas Hagger, 2021-10-29 Nicholas Hagger's literary philosophical historical and political writings are innovative He has set out a new approach to literature that combines Romantic and Classical outlooks in a substantial literary oeuvre of 2 000 poems including over 300 classical odes two poetic epics five verse plays three masques two travelogues and 1 200 stories He has created a new philosophy of Universalism that focuses on the unity of the universe and humankind and the interconnectedness of all disciplines and challenges modern philosophy He has presented an original historical view of the rise and fall of civilisations and proposed and detailed a limited democratic World State with the power to abolish war and solve all the world's problems *Selected Letters* draws together those of his letters written over 60 years that aid the

interpretation and elucidation of his works Many of his correspondents are well known figures within literature philosophy history and international politics and Hagger is in the footsteps of Alexander Pope in editing his own letters which are in the tradition of Pope Wordsworth Keats T E Lawrence Ezra Pound and Ted Hughes one of his correspondents They throw light on all aspects of Hagger s vast output and are required reading for all interested in following the growth of his Universalism his literary development and his innovatory approach to universal truth

**Time in the Philosophy of Gabriel Marcel** Helen Tattam, 2013 Gabriel Marcel 1889 1973 stands outside the traditional canon of twentieth century French philosophers Where he is not simply forgotten or overlooked he is dismissed as a relentlessly unsystematic thinker or following Jean Paul Sartre s lead labelled a Christian existentialist a label that avoids consideration of Marcel s work on its own terms How is one to appreciate Marcel s contribution especially when his oeuvre appears to be at odds with philosophical convention Helen Tattam proposes a range of readings as opposed to one single interpretation a series of departures or explorations that bring his work into contact with critical partners such as Henri Bergson Paul Ricoeur and Emmanuel Levinas and offer insights into a host of twentieth century philosophical shifts concerning time the subject the other ethics and religion Helen Tattam s ambitious study is an impressively lucid account of Marcel s engagement with the problem of time and lived experience and is her first monograph since the award of her doctorate from the University of Nottingham

Peterson, 2001-10-29 With All Your Mind makes a compelling case for the value of thinking deeply about education in America from a historically orthodox and broadly ecumenical Christian point of view Few people dispute that education in America is in a state of crisis But not many have posed workable solutions to this serious problem Michael Peterson contends that thinking philosophically about education is our only hope for meaningful progress In this refreshing book he invites all who are concerned about education in America to participate in his study which analyzes representative theories and practical strategies that reveal the power of Christian ideas in this vital area

*Kierkegaard's International Reception* Jon Stewart, Jon Bartley Stewart, 2009 Although Kierkegaard's reception was initially more or less limited to Scandinavia it has for a long time now been a highly international affair As his writings were translated into different languages his reputation spread and he became read more and more by people increasingly distant from his native Denmark While in Scandinavia the attack on the Church in the last years of his life became something of a cause célèbre later many different aspects of his work became the object of serious scholarly investigation well beyond the original northern borders As his reputation grew he was co-opted by

a number of different philosophical and religious movements in different contexts throughout the world The three tomes of this volume attempt to record the history of this reception according to national and linguistic categories Tome II covers the reception of Kierkegaard in Southern Central and Eastern Europe The first set of articles under the rubric Southern Europe covers Portugal Spain and Italy A number of common features were shared in these countries reception of Kierkegaard including a Catholic cultural context and a debt to the French reception The next rubric covers the rather heterogeneous group of countries designated here as Central Europe Hungary the Czech Republic Slovakia and Poland These countries are loosely bound in a cultural sense by their former affiliation with the Habsburg Empire and in a religious sense by their shared Catholicism Finally the Orthodox countries of Eastern Europe are represented with articles on Russia Bulgaria Serbia and Montenegro Macedonia and Romania
