Sketchbook, 1946-1949 Julio Alpuy, 1946 **Sketchbooks, 1946-1949** Max Frisch, 2022-05-20 A new translation of one of the earliest volumes of Max Frisch's innovative notebooks Throughout his life the great Swiss playwright and novelist Max Frisch 1911 1991 kept a series of diaries or sketchbooks as they came to be known in English First published in English translation in the 1970s these sketchbooks played a major role in establishing Frisch as according to the New York Times the most innovative varied and hard to categorize of all major contemporary authors His diaries said the Times read like novels and his best novels are written like diaries Now Seagull Books presents the first unabridged English translation of Sketchbooks 1946 1949 in a new translation by Simon Pare This edition reinstates material omitted from the 1977 edition including a screenplay for an unmade film In this first volume which covers the years 1946 to 1949 Frisch chronicles the intellectual and material situation in postwar Europe from the vantage point of a citizen of a neutral German speaking country His notes on travels to the scarred cities of Germany to Austria France Italy Prague Wroclaw and Warsaw paint a complex and stimulating picture of a continent emerging from the rubble as new fault lines are drawn between East and West As Frisch completes his final architectural projects and garners early success as a writer he reflects on theater language and writing and he sketches the outlines of plays including *The Fire Raisers* and *Count derland* Whatever experience he chronicles in the sketchbook whether it's a Bastille Day party an Italian fish market or a tightrope display amid the ruins of Frankfurt or an afternoon by Lake Zurich with Bertolt Brecht to take just a few examples his keen dramatist's eye immerses the reader in the setting while also probing the deeper significance and motivations underlying the scene This new translation will serve to draw out the immediacy and contemporary quality of Frisch's observations from the shadow of his status as a classic author bringing his work to life for a new audience **Sketchbook 1946-1949** Max Frisch, 1977

Frisch Michael Butler, 2015-12-30 *The Pieces from Berlin* Michael Pye, 2007-12-18 In the great disorder of wartime Berlin Lucia Muller Rossi was an unofficial star mistress to an Ambassador the whole world to her young son and guardian of all the lovely things her Jewish friends were forced to leave behind as they took the trains to the death camps Sixty years later one of those fine pieces sits for sale in the window of Lucia's antiques shop and its true owner happens to pass by In that moment a whole lifetime of silence cracks open and Lucia's family face the wrenching duty of examining a past almost too horrifying to remember Photography and Place Donna West Brett, 2015-12-07 As a recording device photography plays a unique role in how we remember places and events that happened there This includes recording events as they happen or recording places where something occurred before the photograph was taken commonly referred to as aftermath photography This book presents a theoretical and historical analysis of German photography of place after 1945 It analyses how major historical ruptures in twentieth century Germany and associated places of trauma memory and history affected the visual field and the circumstances of looking These ruptures are used to generate a new reading of postwar German photography of place The analysis includes original research on world renowned German photographers such as Thomas Struth Thomas Demand Michael Schmidt Boris Becker and Thomas Ruff as well as photographers largely unknown in the Anglophone world

Reciprocities in the Nonfiction Novel John Russell, 2000 Nonfiction novels have usually been associated with the new journalism writers of the 1960s such as Tom Wolfe Norman Mailer and Truman Capote Yet this form has long commanded a key position in the literary canon as John Russell now reveals Russell identifies eleven major works not usually thought of as nonfiction novels such as Isak Dinesen's *Out of Africa* and E E Cummings's *The Enormous Room* to create a new definition of the genre He shows that journalistic writing is characterized by a reporter's proprietary stance which undermines reciprocity with subjects while true nonfiction novels feature greater reciprocity and also employ such techniques as circular narrative and bricolage *Reciprocities in the Nonfiction Novel* contributes to ongoing explorations of literary forms and offers wise commentary on how writing about real life can become art *Improvising Out Loud* Jeff Corey, 2017-05-16 Jeff Corey 1914

2002 made a name for himself in the 1940s as a character actor in films like *Superman* and *The Mole Men* 1951 *Joan of Arc* 1948 and *The Killers* 1946 Everything changed in 1951 when he was summoned before the House Un American Activities Committee Corey refused to name names and was promptly blacklisted which forced him to walk away from a vibrant livelihood as an actor and embark on a career as one of the industry's most revered acting instructors In *Improvising Out Loud My Life Teaching Hollywood How to Act* Corey recounts his extraordinary story Among the actors who would soon fill his classes were James Dean Kirk Douglas Jane Fonda Rob Reiner Jack Nicholson and Leonard Nimoy In 1962 when the blacklist ended Corey was one of the industry's first trailblazers to seamlessly reboot his acting career and secure roles in some of the classic films of the era including *Butch Cassidy and the Sundance Kid* 1969 *True Grit* 1969 and *Little Big Man* 1970 in which he starred as the infamous Wild Bill Hickok Throughout his life Corey sought to capture the human heart in conflict in terror in love and in all of its small triumphs His memoir which he wrote with his daughter Emily Corey provides a unique and personal perspective on the man whose teaching inspired some of Hollywood's biggest names to star in the roles that made them famous

Knowledge and Time Hans Primas, 2017-05-23 This is a unique volume by a unique scientist which combines conceptual formal and engineering approaches in a way that is rarely seen Its core is the relation between ways of learning and knowing on the one hand and different modes of time on the other Partial Boolean logic and the associated notion of complementarity are used to express this relation and mathematical tools of fundamental physics are used to formalize it Along the way many central philosophical problems are touched and addressed above all the mind/body problem Completed only shortly before the death of the author the text has been edited and annotated by the author's close collaborator Harald Atmanspacher
