would be more beneficial to the academic and general scientific and technical community After five years of this joint undertaking we had concluded that it was in the interest of all concerned if the printing and distribution of the volumes were handled by an international publishing house to assure improved service and broader dissemination Hence starting with Volume 18 Masters Theses in the Pure and Applied Sciences has been disseminated on a worldwide basis by Plenum Publishing Corporation of New York and in the same year the coverage was broadened to include Canadian universities All back issues can also be ordered from Plenum We have reported in Volume 38 thesis year 1993 a total of 13 787 thesis titles from 22 Canadian and 164 United States universities We are sure that this broader base for these titles reported will greatly enhance the value of this important annual reference work While Volume 38 reports theses submitted in 1993 on occasion certain universities do report theses submitted in previous years but not reported at the time
