The Butterfly Hatch Richard Vytiniorgu, 2018-12-01 Some of H D's most oft quoted lines have to do with the meaning and value of words they are conditioned to hatch butterflies Yet rather than seeking merely to understand how H D represented the meaning and value of words this volume uses the butterfly hatch as a metaphor for thinking more broadly about the capacity of literary experience to hatch transformed persons butterflies in quest of wisdom in university English studies Dislodging H D from her usual modernist context this book positions her as a thinker and reads her autobiographical prose and recently published work of the 1940s for its ability to offer new insights into such pertinent and interconnected areas as literary contexts imagination and personal and social transformation H D has in her own words always been uncanonically seated resistant to rigid classification the texture of her work celebrates internal existential resonances that evidence the emergence of personality The author capitalizes on this facet of H D's work and uncanonically seats her in conversation with the neglected literary theorist Louise Rosenblatt 1904-2005 whose transactional contribution uniquely fuses critical theory politics philosophy and educational vision This book synthesizes the work of H D and Rosenblatt to create an emergent personalist theory of literary experience in the quest for wisdom crystallizing links between philosophical anthropology aesthetics pedagogy and the politics of human relations Benefiting from access to unpublished material housed at Columbia New York and Yale universities Vytiniorgu combines analysis and theorizing to offer a significant pedagogically inflected intervention in literary studies arguing that university English studies must incorporate critical and pedagogical vantages which open a window on wisdom as well as knowledge
