Governing Guns, Preventing Plunder Asif Efrat, 2012-07-19 From human trafficking to smuggling small arms to looting antiquities illicit trade poses significant threats to international order So why is it difficult to establish international cooperation against illicit trade *Governing Guns Preventing Plunder* offers a novel thought provoking answer to this crucial question Conventional wisdom holds that it is criminal groups that obstruct efforts to suppress illicit trade In contrast Asif Efrat explains how legitimate actors such as museums that acquire looted antiquities seek to hinder these regulatory efforts Yet such attempts to evade regulation fuel international political conflicts between governments that demand action against illicit trade and others that are reluctant to cooperate The book offers a framework for understanding the domestic origins of these conflicts and how the distribution of power shapes their outcome Through this framework Efrat explains why the interests of governments vary across countries trades and time In a fascinating empirical analysis he solves a variety of puzzles Why is the international regulation of small arms much weaker than international drug control What led the United States and Britain to oppose the efforts against plunder of antiquities and why did they ultimately join these efforts How did American pressure motivate Israel to tackle sex trafficking Efrat's findings will change the way we think about illicit trade offering valuable insights for scholars activists and policymakers
