## **Small Town China:**

*Small Town China* Beatriz Carrillo Garcia, 2011-04-19 While much has been written about rural migrant workers experiences in the big cities population movements into China's vast network of towns and small cities has been largely neglected This book presents a detailed case study of rural migrant workers experiences in a small town in a north China county The author explores the processes and institutions that enable or preclude the social inclusion of rural workers into the town's socio economic system Inclusion and exclusion are assessed through an examination of rural workers immersion into the urban labour market their access to welfare benefits and to social services such as housing education and health The book proposes that outside the larger cities there are alternative accounts of urban social change and of the integration of rural migrant workers It stresses the fact that the particular socio economic structure of towns where the state owned share of the economy has been smaller and where consequently social and private forces have been more active allowed for a more open inclusion of rural workers Though shortcomings are still observed the book suggests that China's transformation may not necessarily result in dysfunctional and socially polarized urban environments This book will be of interest to students and scholars of China's rural migrant workers bottom up urbanization and small town development social policy and more broadly on contemporary social change in China Migration and Small Towns in China Bingqin Li, Xiansheng An, 2009

Lee, Malcolm Warner, 2006-09-27 Unemployment in China offers a new and invaluable insight into the Chinese economy keenly analyzing the new directions the world s next superpower is now taking Successfully bringing together a wide range of research and evidence from leading scholars in the field this book shows how unemployment is one of the key issues facing the Chinese economy China s market oriented economic reform and industrial restructuring while greatly improving efficiency have also sharply reduced overstaffing leading to a large increase in unemployment At the same time further restructuring is predicted as the full impact of the accession to the WTO is felt throughout China A further problem is that new jobs in China s growth industries are more likely to be secured by younger better qualified workers than by older poorly educated and unskilled workers who have been laid off This book discusses a wide range of issues related to the growing unemployment problem in China and examines the problems in particular cities appraises the government response and assesses the prospects going forward      **Chinese Urban Reform** Kwok Yin-Wang, 2019-08-08 Based on a 1987 conference on urban development at the Centre for Urban Planning and Development at Hong Kong University      **Local Elites in Post-Mao China** Yingjie Guo, 2018-03-15 This book provides fresh insights into the study of Chinese elites at the county level and below By shifting the analytical focus onto the agency of elites at the local level and away from the institutional structures within which they operate it fills a number of significant gaps in the field In particular this book addresses the lacunae through an empirically rich and diverse set of case studies It proceeds from the premise that the study of local elites can be most fruitful through examining their relations with each other and with the groups that wield power in the community Particularly pertinent to the analyses are three major relations namely the relationship between the elites and their environment between particular types of elites and between the locality and the upper and lower scales Ultimately it concludes that these relations are not only essential to understanding local elites in post Mao China but also in accounting for socio political change and in distinguishing China from other types of societies As a study of local elites in China this book will be useful to students and scholars of Chinese politics political sociology and Chinese Studies in general      *One Country, Two Societies* Martin K.
